STUDENT-CENTRIC LEARNING

Student-centric learning allows for flexibility and personalization, enabling students to choose their learning paths and explore topics that align with their interests and goals. At SSGMCE, Student-Centric Learning encompasses a wide range of teaching methods and techniques designed to prioritize the individual needs and abilities of students.

This approach encompasses a variety of learning methods, including hands-on, experiential learning, participative learning, engagement in project-based activities, both individually and in groups, and the integration of technology to enrich and facilitate the learning process. The primary objective is to nurture critical thinking skills and a genuine passion for learning while creating an inclusive and supportive environment that fosters student success. Additionally, the institution offers opportunities for students to collaborate closely with faculty members, participate in research projects, and engage in real-world problem-solving, all of which contribute to the development of a student-centric learning environment.

In this student-centric approach, the learning experience is tailored to meet each student's unique requirements. In such an environment, teachers serve as facilitators; guiding students through their learning journey and helping them develop critical thinking skills, rather than merely transmitting knowledge. The ultimate goal of student-centric learning is to cultivate independent, self-directed learners who are motivated, engaged, and capable of taking ownership of their own education. This approach prioritizes student choice, allowing for a more flexible and personalized learning experience.

Student Centric Learning at SSGMCE includes:

Experiential learning:

Experiential learning is an educational approach that emphasizes learning through direct, hands-on experiences and reflection on those experiences. It is a highly effective method of learning that goes beyond traditional classroom instruction and textbooks. Instead, experiential learning engages students in real-life situations, encouraging them to actively participate, make decisions, and learn from the outcomes of their actions.

Experiential learning activities include:

Hands on learning

Hands-on learning experiences and activities allow students to apply theoretical knowledge to real-world situations. This could include laboratory experiments, workshops, or simulations that help students gain practical skills and insights relevant to their field of study.

Internships

Internships are structured work experiences that students undertake with organizations or companies related to their academic discipline. During internships, students have the opportunity to work on real projects, gain industry experience, and develop professional skills under the guidance of experienced professionals.

Field Industry Visits

Field industry visits involve taking students on tours to various industries or businesses related to their field of study. These visits provide students with first-hand exposure to industry processes, practices, and operations, helping them connect classroom learning with real-world applications.

Industry Integration Initiatives

Industry Integration Initiatives includes partnerships between educational institutions and industries or businesses. These programs often involve joint projects, research initiatives, or curriculum development efforts that bridge the gap between academia and industry, ensuring that students are well-prepared for the demands of the job market

Skills Enhancement Hub

The Skills Enhancement Hub, situated within Shri Sant Gajanan Maharaj College of Engineering, is a specialized department dedicated to empowering students by enhancing their skills and competencies, aligning them with the demands of the modern job market. This multifaceted hub provides an array of workshops, training sessions, and resources aimed at fostering skill development.

Within SSGMCE, the Skills Enhancement Hub comprises the following specialized centres

Solar Research Centre: This cutting-edge facility is equipped with a range of advanced tools and equipment's. These include a Heat Seal Machine, which ensures secure sealing of components in solar applications, a Sun Simulator that replicates solar conditions for accurate testing and analysis of solar panels, and a Curing Oven crucial for the longevity and durability of solar panels. Additionally, the Centre features a Laminator for encapsulating and protecting solar cells, a Solar Cell Test Apparatus for precise performance measurement, and a Diode Pump Laser Scrambling Machine for specialized solar research processes.

VLSI and Embedded System Design Centre equipped with world-renowned Cadence VLSI Design EDA tools, Agilent's ADS RF Design tools, Xilinx EDA Tools, FPGA, and CPLD Boards, this centre empowers students to excel in digital, analogue, and mixed-signal VLSI design. It serves as a launch pad for future innovators in the field.

SAP ERP Centre boasts a dedicated SAP ERP Laboratory staffed by experts proficient in FICO, MM, SD, ABAP, and BASIS. Students receive comprehensive training in SAP systems, preparing them for careers in enterprise resource planning.

Electric Vehicle Lab equipped with Trainer Kits for BLDC Drive, Simulators, Battery Management Systems, and a Solar-based Charging Station, this lab immerses students in the emerging field of electric vehicles and sustainable transportation.

FAB Lab: Students can explore their creativity and innovation in the Fab Lab, which features state-of-the-art digital fabrication tools like 3D printers, laser cutters, CNC routers, electronics workbenches, PCB milling machines, and vinyl cutters. This space empowers students to bring their ideas to life using cutting-edge technology.

PLC Automation Lab: This lab provides practical experience in Programmable Logic Controllers (PLC), an essential component of industrial automation. Students learn to design, program, and troubleshoot PLC systems, preparing them for careers in manufacturing and process control.

Dr. Georg H Endress Laboratory: This facility is equipped with advanced instruments for Pressure Measurement, Temperature Measurement, Flow Rate Measurement, and Level Measurement. Students gain valuable experience in precision instrumentation and measurement techniques.

Project Expos

Project exhibitions are events where students can showcase their projects, innovations, or research to a wider audience, including industry professionals and potential employers. These events provide students with networking opportunities and a platform to demonstrate their capabilities.

Students Chapters/ Clubs

Student Chapters are dedicated units within the institution that focus on specific areas of interest or academic disciplines. These groups often organize events, workshops, seminars, and activities related to their respective fields, allowing students to deepen their knowledge and skills in a supportive community.

Participative Learning

Participative learning, also referred to as active learning, is an educational approach in which students actively engage in the learning process through a variety of activities and interactions. Our institute, wholeheartedly embrace participative learning as a fundamental element to enhance students' educational experiences. It includes

Collaborative Group learning

Group learning activities at SSGMCE are designed to foster collaboration, problem-solving skills, and effective communication among students. These activities encourage students to work together to tackle engineering challenges and enhance their understanding of complex concepts. This includes following initiatives.

Group Projects: Institute assign group projects that require students to work together to design, build, or solve engineering problems. These projects simulate real-world scenarios and help students develop teamwork and project management skills.

Design Competitions : Participating in design competitions, either within the college or at external events, encourages students to collaborate and innovate. These competitions often involve designing and building prototypes or solutions for specific engineering challenges.

Laboratory Experiments: Many courses incorporate group-based laboratory experiments. Students work together to conduct experiments, collect data, and analyse results, reinforcing their understanding of theoretical concepts.

Clubs and Societies : Students clubs or societies related to specific fields, which provides an opportunity for group projects, workshops, and networking.

Hackathons: Hackathons are intense, time-limited events where students work in teams to develop innovative software or hardware solutions. They promote creativity, problem-solving, and quick thinking.

Interdisciplinary Projects: Institute encourage collaboration between students from different engineering disciplines, promoting a holistic approach to problem-solving.

Guest Lectures/ Workshops

Guest lectures and webinars featuring industry experts and corporate professionals provide students with an enriching participative learning experience

Seminars:

Seminars and paper presentations conducted by students serve as powerful tools to foster a participative learning experience for both the presenters and the audience. When students take on the role of seminar presenters, they assume the responsibility of comprehensively understanding and explaining the topic. This sense of ownership motivates them to conduct thorough research and meticulous preparation, resulting in a deeper level of understanding of the subject matter.

Paper Publication:

Student research publications serve as dynamic and participatory learning opportunities, offering numerous advantages. This process sharpens their communication abilities, helping

them express ideas clearly, structure arguments logically, and use appropriate academic language effectively. At SSGMCE, the publication of a paper in a conference or journal is a mandatory requirement for final-year students, emphasizing the institution's commitment to fostering research and academic development.

Self-Learning

At SSGMCE, students adopt self-directed learning by actively engaging in a diverse range of MOOCs offered by prominent platforms such as SWAYAM, NPTEL, Coursera, Udemy, and others. These courses enable them to acquire valuable knowledge and skills across various disciplines, broadening their horizons and nurturing a culture of ongoing self-improvement

Problem-Solving Methodology

The problem-solving methodology is a foundational approach to learning in our institute, providing students with the skills and mindset required to effectively tackle intricate engineering challenges. This approach encompasses various components, including:

Project-Based Learning (PBL)

PBL is an innovative and transformative educational approach that places students at the centre of their learning experience. In PBL, students engage in hands-on projects designed to address real-world problems or challenges. They often work in teams, simulating real-world engineering environments where collaboration and teamwork are essential. This promotes effective communication and the development of interpersonal skills. PBL equips them with practical skills, nurtures critical thinking, fosters innovation, and prepares them to address complex engineering challenges in their future careers.

Aptitude Training

Aptitude training enhances students' cognitive abilities, mathematical skills, and logical reasoning competencies invaluable in engineering problem-solving. At SSGMCE, aptitude training courses are provided to students to enhance their skills.

Innovation and Incubation Centre (IIC) Activities

IIC activities promote innovation, creativity, and entrepreneurial thinking. These initiatives empower students to apply their problem-solving skills in real-world situations and potentially launch their own projects or ventures.

2.3.1: Student centric methods, such as experiential learning, participative learning and Problem solving methodologies

The institute is committed to enriching the learning experience through innovative approaches. It provides a platform for students to cultivate skills, knowledge, attitudes, and values. Departments offer creative programs that encourage problem-solving and stimulate creativity. Faculty members employ student-centric methods to facilitate interactive learning.

Student Centric Learning at SSGMCE includes experiential learning, participative learning and Problem solving methodologies

Experiential Learning

Experiential learning offers a range of advantages, contributing to a more effective and holistic educational experience. Here are some key experiential learning techniques followed at SSGMCE.

Hands on learning

Laboratory Sessions: Lab sessions provide a hands-on learning experience, allowing students to directly interact with concepts and materials. This practical engagement enhances understanding and retention.

Workshops:

Workshops serve as dynamic educational settings that go beyond conventional learning approaches, offering participants immersive, hands-on experiences. Meticulously crafted, these sessions actively involve learners in practical activities, cultivating a profound grasp of concepts and skills.

The Electrical Engineering Department organized a workshop focused on the Introduction to MATLAB, Simulink, and Programming. Prof. Ganesh Bonde and Prof. Pratik Dhabe served as the resource persons for this informative session.

Students participated in a workshop on Introduction to MATLAB Simulink, and Programming

Workshop Summary Report

Workshop Title : Embedded systems and Internet of Things

Date : 11 Jun 2018 -7 July2018

Location : EXTC seminar Hall & VLSI Lab.

Organizing Institute : SSGMCE, Shegaon

Workshop Coordinator : Dr. K.B.Khanchandani & Dr.P.R.Wankhede

Number of Participants : 27

Workshop Objectives:

- 1 To familiar with the various Embedded processor and IOT applications
- 2 Develop applications design Embedded processor and IOT applications.

Outcomes:

- 1.Will be able to understand working of Arduino & Rasberry Pi embedded controllers
2. Can develop application with Embedded C and controllers.
3. Mini project designs using Arduino & IOT concepts.

Submitted by : Dr. P.R.Wankhede

Name and Signature of the Coordinator: Dr. P.R.Wankhede

Date of Submission : 23 Aug 2018

IEEE
SSGMCE STUDENTS BRANCH

Department of Electronics and Telecommunication Engineering

Summer School - 2018

Electronics and Telecommunication Engineering department in collaboration with IEEE Students Branch is organising Summer School - 2018 for engineering UG and PG students to develop technical skill and employability enhancement. Summer School - 2018 is having following three Training Programs, which will help to learn cutting edge technologies from basics to advance. Hands on sessions in each training program will help to analyse and design applications.

Chief Patron Hon'ble Shri Shivshankarbhau Patil Chairman, Shri Gajanan Shikshan Sanstha, Shegaon	Convenor Dr. G. S. Gawande Professor and Head, Dept. of Electronics and Telecomm. Engg.
Patron Hon'ble Shri Shrikantdada Patil Director, SSGMCE, Shegaon	Summer School Coordinator Prof. P. R. Wankhede Assistant Professor, Electronics and Telecomm. Engg Dept. Mobile/Whatsapp: +91 9371857196 Email: pravin.indial@gmail.com
Organizing Chair Dr. S. B. Somani Principal, SSGMCE, Shegaon	Last date of Registration for all programs is 30th April, 2018 For registration, accommodation and other queries contact Summer School Coordinator.

Hurry Up!!
Limited 20 Seats to each program

Programs, Dates and Fees

Sr. No.	Program Name	Fees	Dates
1	Embedded Systems and Internet of Things	Rs. 10000/- per participant <i>(Includes study material, refreshment, and certificate)</i>	11 th June to 07 th July 2018 <i>Duration: One Month</i>
2	Analog VLSI Circuit Design using Cadence	Rs. 6000/- per participant <i>(Includes study material, refreshment, and certificate)</i>	11 th June to 23 rd June 2018 <i>Duration: Two Weeks</i>
3	RF Circuit Design using ADS	Rs. 3000/- per participant <i>(Includes fabrication material, refreshment, and certificate)</i>	25 th June to 30 th June 2018 <i>Duration: One Weeks</i>

Embedded Systems and Internet of Things	Dr. K. B. Khanchandani Prof. P. R. Wankhede Dr. G. S. Gawande Prof. V. V. Ratnaparkhi Prof. V. K. Bhangdiya Prof. A. N. Dolas	<ul style="list-style-type: none"> • Introduction to Embedded Systems • Basics of Electronics • Elements of Embedded Systems • Sensors and Actuators • Embedded Protocols • Embedded C Programming • Introduction to Internet of Things • Hardware and Software infrastructure of IoT • Wireless Technologies for IoT • ESP32 Microcontroller architecture • Data Acquiring, Organizing and Analytics in IoT • Introduction to HTML, CSS, PHP and MySQL • Designing Software and Hardware for IoT Applications • Bluetooth Classic and BLE applications • Android App Development • Wi-Fi and LORA Enabled IoTs • Cloud platforms • Real Time Operating Systems

Shri Sant Gajanan Maharaj College of Engineering, Shegaon
 Department of Electronics and Telecommunication Engineering
 Summer School - 2018

Embedded Systems Design and Internet of Things

11th June to 07th July, 2018

Schedule

11/06/2018 9.00am to 9.30am - Registration Venue: Seminar Hall, EXTC Dept
 11/06/2018 9.30am to 10.00am - Inauguration Venue: Seminar Hall, EXTC Dept

Date/Time	10.00am-12.00noon	12.00pm-1.30pm	1.30pm-4.00pm	4.00pm-4.30pm	4.30pm-7.00pm
11/06/2018	Introduction to Embedded Systems Design Dr. K. B. Khanchandani	Lunch Break	Basics of Electronics Prof. A. N. Dolas	Hi-Tea	Lab Session Preparing Development Environment
12/06/2018	Embedded Systems – Issues, Trends and Directions Dr. K. B. Khanchandani		Sensors and Actuators Prof. P. R. Wankhede		Lab Session GPIO Programming
13/06/2018	Basics of Microcontroller Architecture Dr. G. S. Gawande		ESP32 Microcontroller Architecture Dr. G. S. Gawande		Lab Session Sensors Interfacing
14/06/2018	Lab Session Sensors Interfacing		Embedded Systems for Real-Time Tracking and IoT (IEEE Webinar) Dr. Subramaniam Ganesan Oakland University		Lab Session Relay Interfacing
15/06/2018	Types of Motors and Drivers Prof. P. R. Wankhede		Lab Session Motor Control		Lab Session Motor Control
16/06/2018					
17/06/2018	Holiday		Holiday		Holiday
18/06/2018	Lab Session Gas Sensing		Lab Session Color Recognition		Lab Session Display Devices
19/06/2018	uC Communication Protocols Prof. V. K. Bhangdiya		Lab Session Using Controller Protocols		Lab Session RFID Interfacing
20/06/2018	Wireless Technologies Prof. V. V. Ratnaparkhi		Lab Session Tilt Sensing using Accelerometer		Lab Session SD Card Interfacing
21/06/2018	Bluetooth Classic and Bluetooth Low Energy Prof. P. R. Wankhede		Lab Session Introduction to MIT App Inventor		Lab Session Android App Design
22/06/2018	Lab Session Android App Design		Lab Session Android App Design		Lab Session Android App Design
23/06/2018					
24/06/2018	Holiday		Holiday		Holiday
25/06/2018	Introduction to Internet of Things Dr. K. B. Khanchandani	Lunch Break	IoT Protocols Prof. P. R. Wankhede	Hi-Tea	Lab Session Setting up Wi-Fi
26/06/2018	IoT: Applications and Opportunities Dr. K. B. Khanchandani		Lab Session HTML Programming		Lab Session Introduction to CSS
27/06/2018	IoT Enabling Technologies Prof. P. R. Wankhede		Lab Session Data Acquisition and Device control using Web Browser		Lab Session Data Acquisition and Device control using Web Browser
28/06/2018	IoT Cloud Platforms Prof. P. R. Wankhede		Lab Session Cloud Data Logging		Lab Session Cloud Data Logging
29/06/2018	Lab Session Device control from anywhere		Lab Session GSM		Lab Session GSM
30/06/2018					
01/06/2018	Holiday		Holiday		Holiday
02/06/2018	Lab Session Creating Server on PC		Lab Session Introduction to MySQL/Databases		Lab Session Storing data using MySQL
03/06/2018	Lab Session Introduction to PHP		Lab Session Display Data using PHP		Lab Session Storing Data using PHP
04/06/2018	Project Weather Station		Project Home Automation		Project Home Security System
05/06/2018	Project Web Server		Project Attendance System using RFID, MySql and PHP		Project Pseudo-Theremin
06/06/2018	Project Android App for Home Automation		Lab Session Multipurpose Robot		Certificate Distribution
07/06/2018	Project Competition

Workshop on Microcontroller Board Design was conducted by Prof V.S Ingle for Second Year & Third Year Students (Electronics and Tel.Com. Engg Students)

Workshop on Microcontroller Board Design

Shri Sant Gajanan Maharaj College of Engineering, Shegaon
Department Of Electronics and Telecommunication Engineering

(Report of Workshop on Microcontroller Board design on 19th March 2023)

(Quarter II IIC 5.0 Calendar Activity 22-23 (1st December to 28th February)

Name of the event:Program types	Microcontroller Board Workshop
Resource persons	Mr.Shreyas Shah Mr.Vikram Ingole
Academic year	2022-2023
Program Theme	Design –fabricate-Programme the Microcontroller Board
Start date& End Date	19/03/2023 to 22/03/23
Duration of the activity (in hours)	32Hrs(Four Days)
No. Participants	Students Participated - 36 Faculty Present -01

Mode of session (online /offline)	Offline
Program driven by	Quarter III IIC 5.0 Calendar Activity 22-23 (19/03/2023 to 22/03/23)
Session recording link /offline venue All Social media Link (promotion)	Venue : <i>FAB LAB</i>
Event Coordinator Faculty Name/Department /Designation	Prof.Vikram Ingole Department of Electronics and Telecommunication Engineering
Target Participants	Second Year & Third Year Students (Electronics and Tel.Com. Engg Students)
Objective Benefit in term of learning/skill/knowledge obtained (benefit in term field is required)	Objective of this Workshop as follows <ul style="list-style-type: none"> • Student will be able to learn design electronics circuits using design software such as Easy EDA • Students will be able to fabricate SMD components • Students will be able to program the microcontroller Board Outcome of this event are following After competition of workshop participant are able to <ul style="list-style-type: none"> • Design own microcontroller Board using EasyEDA software Board • Stuff and soldered SMD Components on double

	<p>sided PCB</p> <ul style="list-style-type: none"> • Identification and Testing of SMD Electronics Components • Troubleshooting PCB using HOT and COLD Testing methods. • Program the Microcontroller Board
--	---

Overview of the program:

Based on above objective, the department of electronics and telecommunication Shri Sant Gajanan Maharaj College of Engineering, Shegaon in association with ISTE Student Chapter, IEI Mechanical Engg. Student Chapter and Institute Innovation Council has organized **Microcontroller Board Design fabricate program workshop on 19/03/2023** for Second and third year students of Electronics and Telecomm. Eng. Total 36 students and 01 Faculties participated in the mention program.

Detail Schedule of Program:

Time	<p>Day1 19 / 3 / 2023 Sunday</p>
11AM TO 1:00PM	<p>Basics of Electronics Components identification polarity working, packages</p>
1:15PM TO 3:15PM	<p>Starting with Easy EDA All tools, how to use, software roadmap</p>

3:45PM TO 5:45PM	Design a board Make a Schematic Convert to PCB (work-along)
7:00PM TO 9:00PM	Interesting Topic Discussion Topic1

Time	Day2 20 / 3 / 2023 Monday
11AM TO 1:00PM	Custom Board Design Hedy MCU Different shapes, Images
1:15PM TO 3:15PM	Hedy MCU Assembly components sorting paste application
3:45PM TO 5:45PM	Hedy MCU Assembly component placement Soldering
7:00PM TO 9:00PM	Interesting Topic Discussion Topic2

Time	Day3 21 / 3 / 2023 Tuesday
11AM TO 1:00PM	PCB Inspection Visual Inspection Cold Testing

1:15PM TO 3:15PM	Debugging Desolderig Re-solderig
3:45PM TO 5:45PM	Debugging Hot Testing Test Sheets
7:00PM TO 9:00PM	Interesting Topic Discussion Topic3

Time	Day4 22 / 3 / 2023 Wednesday
11AM TO 1:00PM	Programming The Codes Testing with App
1:15PM TO 3:15PM	Future Scope How to design a project around Hedy MCU
3:45PM TO 5:45PM	Discussion Project Ideas Project Building Blocks
7:00PM TO 9:00PM	Conclude

Prof.Vikram Ingole Welcome Hon'ble Director Mr.Shrikantdada Patil, Principal Dr.S.B.Somani, HoD Dr..M.N.Tibdewal, IIC Chairman Dr.S.B.Patil. IIC Member Dr.R.S.Dhekekar and request to inaugurate the program.

Prof.Vikram S Ingole was workshop coordinator for this workshop. Mr.Shreyas Shah from Pune was present as a resource person for this workshop

As per schedule workshop begin by conducting different activity during four days. Finally workshop concluded on fourth day

Mr V.S.Ingole

Internships

Internships provide hands-on learning experiences by immersing individuals in real-world work environments related to their field of study or career aspirations. Interns have the opportunity to apply theoretical concepts and academic knowledge acquired in the classroom to actual workplace situations. This bridge between theory and practice enhances their understanding.

Gurjeet sahney Final Year IT Student recieved an appreciation for his internship with Vnurt Tehnology and Solutions Pvt Ltd. For his outstanding work company awarded him appreciation certificate and Rs 4000/-

Sample Certificate of a student

Three students from the Department of Information Technology have bagged a six month long paid Internship with Onesmarter Inc., USA. The students include Ms. Aishwarya Vyaware and Mr. Sanket Vakil of Final Year IT and Mr. Kartik Chauhan from Third Year IT. The opportunity was provided to the students by Dr. Vikram Sethi, President, OneSmarter Inc., USA and Director at Institute of Défense Studies, Wright State University, Dayton, Ohio, USA. He personally selected the students for internship through technical Interview and assignments. This internship not only benefited the students for their personal technical growth but also provide them with a global platform to explore the work culture abroad and learn from the leads in the field. This opportunity was provided by our prestigious alumnus Mr. Mangesh Wankhade, MD, WAPARKING, Pune. In addition to this, 19 students were also selected to work on this project.

अभियांत्रिकी महाविद्यालय के छात्रों को अंतरराष्ट्रीय इंटरशिप

शहर संवाददाता |
शेगांव

श्री संत गजानन महाराज महाविद्यालय के तीन छात्रों को अंतरराष्ट्रीय इंटरशिप प्राप्त हुई है। सूचना तंत्रज्ञान अभियांत्रिकी शाखा की ऐश्वर्या व्यवहारे, कार्तिक चौहान तथा संकेत वकील, इन छात्रों की वन स्मार्टर इन कॉर्पोरेशन, अमेरिका द्वारा छह माह के लिए वीडिओ कॉन्फरेन्स मुलाकात द्वारा चयन हुआ है। उनकी मुलाकात भारतीय, लेकिन अमेरिका में स्थायी हुए डॉ.

विक्रम सेठी, संचालक, वन स्मार्टर इन कॉर्पोरेशन, अमेरिका के नेतृत्व में हुई। छह माह के लिए उन्हें प्रत्येकी तीस हजार रूपए वेतन मिलेगा। उसी तरह विभाग के 19 छात्र प्रोजेक्ट लाईट हाउस इस संकल्पना पर काम कर रहे हैं, इस दौरान उन्हें प्रशिक्षण मिलने से नौकरी का अवसर उपलब्ध रहेगा।

कैरियर संवारने में होता है लाभ ■ महाविद्यालय के पूर्व छात्र मंगेश वानखेडे द्वारा यह मौका महाविद्यालय के छात्रों को प्राप्त हुआ है। महाविद्यालय द्वारा छात्रों को हमेशा विविध कंपनियों में इंटरशिप के लिए भेजा जाता है। इंटरशिप का मुख्य लक्ष्य छात्रों को वर्किंग वर्ल्ड में प्रवेश करने के पूर्व पहले ही सीखे हुए विशिष्ट तंत्रों की जांच करने की इजाजत देना, इंटरशिप दौरान छात्र उद्योग जगत की कार्यपद्धति तथा आज मार्केट में क्या चल रहा है, इसका पता छात्रों को होता है, वे अपने कौशल्य पर और अधिक कार्य करने की शुरुवात करते हैं। उसका लाभ उन्हें उनके व्यक्तिगत कैरियर में होता है। महाविद्यालय के संचालक श्रीकांतदादा पटिल, प्रा.डा. एस. बी. सोमानी, सूचना तंत्रज्ञान विभाग के प्रमुख प्रा. अमित मानेकर, सभी प्राध्यापक एवं शिक्षकेतर कर्मचारियों ने सफल छात्रों का अभिनंदन किया है।

INTERNSHIP CERTIFICATE

This is to certify that **Kirti Arun Raut** has worked as a **Full Stack Developer Intern** during the period 12/12/2022 to 12/02/2023 and has successfully completed the internship. During the internship period, Kirti Arun Raut has shown an incredible amount of responsibility, sincerity, a genuine willingness to learn and zeal to take on new assignments & challenges. In particular, the development skills are par excellence, and the attention to details is impressive.

We wish Kirti Arun Raut all the very best for their future endeavors.

Sincerely,

Hannan Satopay
Chief Executive Officer

Industry Visits

Industry visits provide experiential learning by offering students a firsthand glimpse into the practical workings of various industries. Industry visits expose students to the actual work environments and operations of different industries. This firsthand experience goes beyond textbook knowledge, providing a tangible understanding of how concepts are applied in real life

SSGMCE, Shegaon
Dept. of Elect. & Telecomm.Engg.

Date: 10/3/2020

1 Industries Visited

- a. S A Electronics, Pune
Contact Person: Mr. Sandeep Lohiya
- b. Vigyan Ashram, Pabal,Pune

2 Industrial Tour Members

- a. Faculty and staff:
 - i. Prof. V. N. Bhonge
 - ii. Prof. M.L. Bhaiyya
 - iii. Mr. S.P.Satal
 - iv. Prof. B.P.Harne
- b. Students:
 - i. 4U students - 49

3 Schedule of Industrial Visit

One vehicle is arranged for 53 members (49 students, 4 staff) and departed from SSGMCE campus for Pune at 7.00 am on 2/3/2020 .The schedule of industrial visit is given in table 1

Table 1 Schedule of industrial visit from 2/3/2020 to 6/3/2020

Sr.No.	Activity	Time	Date
1	Departure from SSGMCE, Shegaon to Alandi, Pune	7.00 AM	2/3/2020
2	Industry visit S A Electronics ,Pune	9.00 AM	3/3/2020
3	Industry visit Vigyan Ashram, Pabal,Pune	9.00 AM	2/3/2020
4	To Imagica for Excursion (From Bhakta Niwas, Alandi)	7.00 AM	5/3/2020
5	Departure from Alandi ,Pune to SSGMCE,Shegaon	7.00 AM	5/3/2020

4 Outcomes of Industrial Visit

Industrial visits are an important part of the educational experience for students in various fields, such as engineering, business, and hospitality. These visits provide students with real-world exposure to the industry they are studying and offer several valuable outcomes:

1. Practical Understanding: Industrial visits allow students to see how theoretical concepts are applied in a real-world setting. This practical exposure helps them better understand

4 Outcomes of Industrial Visit

Industrial visits are an important part of the educational experience for students in various fields, such as engineering, business, and hospitality. These visits provide students with real-world exposure to the industry they are studying and offer several valuable outcomes:

1. Practical Understanding: Industrial visits allow students to see how theoretical concepts are applied in a real-world setting. This practical exposure helps them better understand

their coursework and gain insights into the practical aspects of their field.

2. **Application of Knowledge:** Students can observe how the concepts they've learned in the classroom are put into practice in an industrial environment. This hands-on experience can enhance their ability to apply what they've learned.
3. **Career Insight:** Industrial visits provide students with a glimpse into potential career paths and job roles within the industry. This exposure can help them make informed decisions about their future careers and areas of specialization.
4. **Networking Opportunities:** Students can interact with industry professionals, ask questions, and build relationships with potential future employers or mentors. This networking can be valuable for internships, job placements, and career guidance.
5. **Problem-Solving Skills:** By witnessing real-life challenges and problem-solving strategies in an industrial setting, students can develop their critical thinking and creative problem-solving skills.
6. **Motivation and Inspiration:** Experiencing a successful industrial operation can inspire and motivate students to work hard and excel in their studies. It can also help them set higher career goals.
7. **Soft Skills Development:** Students often need to communicate, collaborate, and adapt to different situations during industrial visits. This can enhance their soft skills, such as teamwork, communication, and adaptability.
8. **Cultural Exposure:** For international students, industrial visits can provide cultural exposure and a better understanding of how businesses operate in different parts of the world. This can be particularly valuable for global business and international relations students.
9. **Confidence Building:** Visiting industries and interacting with professionals can boost students' self-confidence and help them feel more prepared for the real world after graduation.
10. **Compliance and Safety Awareness:** Students can learn about industry-specific regulations, safety protocols, and compliance standards, which are crucial in many fields, such as manufacturing and healthcare.
11. **Industry Trends and Innovations:** Industrial visits allow students to stay updated on the latest industry trends, technologies, and innovations. This knowledge can be useful for research projects and staying competitive in the job market.
12. **Enhanced Resume:** Participation in industrial visits is a valuable addition to a student's resume. It shows a proactive approach to learning and an interest in practical industry experience.

During this session, students interacted with the staff of S A Electronics. It is a renowned supplier of Process control Instrumentation products. It offers solutions for the measurement and control of Pressure, Temperature, Level, Flow and Weight. Our students gained knowledge of different sensors by visiting this industry. Second visit to Vigyan Ashram encouraged students to become entrepreneur. It is the world of rural technology where individuals express their interest to become entrepreneur.

REPORT ON STUDY TOUR CUM INDUSTRIAL VISIT
DEPARTMENT OF BUSINESS ADMINISTRATION AND RESEARCH
SHRI SANT GAJANAN MAHARAJ COLLEGE OF ENGINEERING, SHEGAON

A study tour cum industrial visit including twenty students from MBA I year and three faculty members was organized during 20- 21 December 2022 to the following places-

- 1- Mahatma Gandhi Institute for Rural Industrialization (MGIRI), Wardha
- 2- Center of Science for Villages, Wardha
- 3- Magan Museum, Wardha
- 4- Sevagram Ashram, Sevagram
- 5- Pavnar Ashram, Pavnar

During this visit, the aspirants had an opportunity to meet people, interact, comprehend and experience the functioning at Khadi and Textile Division, Rural Energy and Infrastructure Division, Rural Craft and Engineering Division, Micro processing and Herbal Division at MGIRI. The Senior Scientific Officer Mr. Sachin Raut and his colleagues illustrated the ins and outs of the entire institute's functioning. They further explored the possibilities of internships, projects, trainings and entrepreneurial venture possibilities matching with the Management fraternity and MBA students. A few personnel were also requested for guest talks in the department.

Different places at Sevagram Ashram like Adi Niwas (The First Cottage), Prayer Ground, Bapu Kuti (Gandhi's Cottage), Ba Kuti (Kasturba's Cottage), Akhri Niwas (The Last Abode) and the interactions with the personnel from Ashram added colors to the visit. This was distinguished, special and unique learning experience in the light of Gandhian Philosophy which is also a part of syllabus in the subject Indian Ethos and Business Ethics for MBA I year students.

Mr. Gautam Bajaj elaborated the life, philosophy, work of Vinoba Bhave at Pavnar Ashram and also shared the views on Vinoba Bhave's literature and its contemporary relevance in the context of youth. Students and faculty members participated in the everyday "Vishnusahastranam" prayer at Pavnar Ashram. The visit was also significant in the light of Holistic Approach and NEP (National Education Policy).

Industry Integration Initiatives

Industry integration initiatives involve experiential learning by bridging the gap between academic knowledge and real-world applications. These programs are designed to provide students with practical experiences that enhance their understanding of industry practices and foster skill development. Through hands-on projects, internships, and collaborative engagements with professionals, students gain valuable insights, apply theoretical concepts in real-world scenarios, and develop the skills needed for success in their chosen fields.

The institute has established Memoranda of Understanding (MoUs) and collaborations as part of its Industry Integration Initiatives. Through these collaborations, a number of activities are conducted for students.

The details are tabulated below.

Over View Of The Program

The workshop on “ Autodesk Fusion 360” was organized by IEI Mechanical Student Chapter and Department of Mechanical Engineering,SSGMCE . The presentation was delivered by Prof. K.V. Chandan (Asst. Prof. Mechanical Engineering Dept) SSGMCE Shegaon.

Around 35 students from Mechanical, department participated in the workshop. The workshop emphasized on the importance of CONVERGENCE OF DESIGN, ENGINEERING AND MANUFACTURING INTO A PRODUCT INNOVATION PLANNING.

The following points were described during the workshop

- Basic Introduction about the Autodesk software was given.
- Opportunity for students to showcase their design skills by solving design challenges posted by industry.
- Guided on how to create Autodesk student account, so that student can download any Autodesk software.
- Verification on Autodesk software is done with the instructions from the mentor.
- Basic features of Fusion 360 were shown and explained their functionalities.
- Connect industry and academia to provide students with an opportunity to be mentored by industry experts.
- The goal is to enable autonomous decision-making processes, monitor assets and processes in real-time, and enable equally real-time connected value creation networks through early involvement of stakeholders, and vertical and horizontal integration.
- Exposure towards use of advanced technology/design software to make design more feasible and faster.

To explore the power and simplicity of designing . This workshop was appreciated by all the students as they were able to add another skill in their technical skill set. The trainer Prof. N.G. More ,has given the mix of theory and practical knowledge of 3D printing, Stereolithographic, or SLA printers.

3D Printing is a form of additive manufacturing technology where a three dimensional object is created by laying down successive layers of material. It is also known as rapid prototyping, is a mechanized method whereby 3D objects are quickly made on a reasonably sized machine connected to a computer containing blueprints for the object. The 3D printing concept of custom manufacturing is exciting to nearly everyone.

Applications of Additive Manufacturing

- Prototyping
- Modelling
- Custom parts
- Design
- Research

The Workshop comes to an end after the Presentation session on 24th Dec 2022 . Not a single student “Miss the Boat“ of this opportunity and learned new things which is also applicable for their academic and practical work.

Project Expos

Project expos at SSGMCE, significantly support student-centric learning by fostering an environment that emphasizes active participation, independent thinking, and hands-on experiences. The project expo setting provides a platform for students to showcase how they addressed and overcame these challenges.

Event Coordinator Faculty Name/Department /Designation	Dr. M. N. Tibdewal and Dr. R. S. Dhekekar Professors Electronics and Telecommunication Engg. Department
Target Participants	First, Second and Third Year Students
Objective Benefit in term of learning/skill/knowledge obtained	Objective of this Workshop as follows <ul style="list-style-type: none">• To aware students about Electronics Circuit development and applications• Motivate students to design electronics Circuit using sensors and processors• To understand Electronic circuit for need base solutions Outcome of this event are following <p>After competition of this activity participant are able to</p> <ul style="list-style-type: none">• To understand the operating principle of sensors and actuators• Students are able to explain their work.• They have learned presentation Skill• Students have developed some confidence to design electronics projects.

Overview of the program:

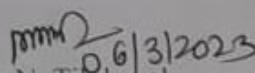

Department of Electronics and Telecommunication Engineering Shri Sant Gajanan Maharaj College of Engineering, Shegaon in association with ISTE and Institute Innovation Council has organized Electronics projects exhibition for second year students of Electronics branch only. Total 130 students participated in the mention exhibition. Complete project building activity took place for one and half months by providing idea and need base Electronics projects to the 3 to 4 students in a group. Design and selection of Electronics components has been finalized with Dr. B. P. Harne and Dr. D. P. Tulaskar has motivated the students to implement mini electronics based project and some constructive ideas used for real time implementation as well as need based electronics project. Based on the different criteria above faculty has distributed circuits idea to implement electronics projects to the groups of students.

The project exhibition has started at 9:30am in all electronics department labs. Expert committee headed by Prof. V. N. Bhonge, Dr. P. R. Wankhade and Mr. K. T. Kahar evaluated the projects groups and sort-out best three project group among all groups. The selected best projects are allowed to participate in Alumni project exhibition which was held on 14th January 2023.

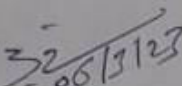

Dr. S. B. Somani Principal, Dr. S. B. Patil IIC Chairman, Dr. M. N. Tibdewal Head of Department, Mr. Piyush Dhalke Convener of IIC and Dr. R. S. Dhekekar Member of IIC Visited and inspected all projects groups. First year all branches students visited the exhibition up to 12:30noon. Breakfast and tea also provided to all 130 participants. Vote of thanks has been given by Dr. R. S. Dhekekar IIC member.

Students Chapters/ Clubs

Students Chapters at SSGMCE significantly contribute to student-centric learning by offering platforms for active engagement, skill development, and real-world application of knowledge.

By organizing guest lectures, hands-on workshops, Symposium, student chapters provide valuable opportunities for students to apply theoretical knowledge in practical settings. Collaborative projects and skill competitions further enhance teamwork and critical thinking skills

Various student chapters and clubs functioning at SSGMCE encompass a diverse range of interests and disciplines.

IEEE Students' Branch Report

2022-23

IEEE students Branch and WIE Affinity group organized a STEM workshop on Basics of Electronics for School students on 19th and 20th August 2022. 50 Students from Shri Sant Gajanan Maharaj English School and G. B. Murarka High School participated and learn the basics of electronics. Basic electronics components kit distributed to the students.

IEEE students Branch and Robotics and Automation Society Chapter Two Days workshop on Robotics - Robovision on 11th and 12th February 2023. Total 38 Students successfully completed the workshop.

IEEE students Branch organized a workshop on calculator “**Chasing Calsi**” on 17th December, 2022 for first year students. Total 150 students participated and understand how to use calculator for engineering and scientific calculations.

IEEE WIE Affinity Group in collaboration with IEEE Bombay Section under the series of Shakuntala Bhagat Lecture Series conducted Guest Lecture on “Law and Woman” by Adv Rajani Bawaskar, on 2nd March 2023 on the occasion of International Women's Day.

On the occasion of Engineer's Day, 15th September 2022, a guest talk was organized on “Journey through Einstein's Brain” by Dr. Mukund Moharir, Retd. Aerospace Scientist/Engineer NASA.

IEEE students Branch and Robotics and Automation Society Chapter organized Two Days Workshop on “Circuit Simulation and Arduino Programming Workshop” on 1st and 2nd October 2022. Total 32 students participated and successfully completed the hand-on workshop.

IEEE students Branch in collaboration with Indian Physics Association (IPA) and IEEE Bombay Section organized an IPA colloquium on topic Particle Accelerator technology for Radiotherapy and Hadron Therapy by Dr. Tanuja Dixit, Senior Scientist, Society for Applied Microwave Electronics Engineering & Research (SAMEER) Mumbai.

IEEE students Branch organized “Greet and Meet” program on 1st March 2023 with all the IEEE student members for networking and understanding working with IEEE Committee.

IEEE Students' Branch has hosted "Technovation-2023" - a Project Competition organized by Student Activities Committee, IEEE Bombay Section on 8th April 2023. Technovation - 2023 was a project competition and exhibition aimed at undergraduate students and teams. There were total registration of 39 project groups registered and participated in the competition. Mr. Anand Gharpure, Chair IEEE Bombay Section and Dr. Jayant Joshi, Government Polytechnic Nashik were present as Chief Guest as well as Evaluators for the competition. Dr. S. B. Patil, Head Computer and Science and Engineering, SSGMCE also assisted as an Evaluator.

IEEE Students' Branch has organized National Students' Conference on Innovations in Rural Development on 20-21 April 2023 in Online and Offline mode. The conference was financially sponsored by IEEE Bombay Section. The technical tracks for the conference was Agriculture and Farming, Water and Sanitation, Healthcare and Nutrition, Energy and Environment, and Education. It has received overwhelming response from research community and total 125 research papers received for review process. Out of 125, 50 papers were selected for presentation and publication. Dr. Shashikant Sadistap, Chief Scientist, CSIR-CEERI Pilani has delivered a keynote talk on E-agriculture: Digital Technology in Rural Development on 20th April 2023. Dr. Gulab Singh, Centre of Studies in Resource Engineering, IIT Bombay has delivered a keynote talk on "Radar Polarimetry and applications" on 21st April 2023. There were total 18 session chairs evaluated the research papers presented in eight technical sessions.

IEI Mech Student's Report

Institute of Engineer's India, SSGMCE Mechanical Engineering student chapter is a student body of Mechanical Engineering students which runs under the Prof. K V Chandan as faculty advisor and Atharv Kute as student Convener. IEI is a charter body of Govt. of India, established in 1935 and runs students chapters in entire country in various technical capmuses and holds various curricular and co-curricular activities such as Students conferences, quizzes, expert talks and many more social and student focused activities. This Year chapter kicks session with “Tree Plantation Drive on August 15, 2022 participating 30 students organized by Shegaon Municipal Corporation and Go Green Foundation Shegaon. The CEO of the Shegaon Municipal Corporation, Ms. Jayshree Katkar, was the guest of honor.

On the eve of engineers day, an expert talk on Journey through Einstein's Brain was held on September 15, 2022 by Dr. Mukund Moharir, a scientist/engineer at NASA, addressed more than 80 faculty and staff members of SSGMCE about the journey of Einstein's theory of relativity. Session on GATE Exam Awareness & Preparation Strategy on September 30, 2022 by Prof. K V Chandan of SSGMCE conducted a session on GATE exam awareness and preparation strategy for 45 students. Two-Days Hands-On Workshop on Web Development on October 1-2, 2022 by Abhishek Gawali and Nikhil Babhulkar and Workshop on Fusion 360 for 3D Printing on November 26-27, 2022, and December 3, 12, 2022 by Prof. K V Chandan and N G More of SSGMCE enhances the knowledge of interdisciplinary students in web developments and 3-D printing. Expert Talk on Expectation of Engineers from Industry - January 3, 2023 by Jagdish Wadhokar and Mr. Parsnis gave an expert talk on the expectations of engineers from the industry, which was attended by 50 students. Webinar on Boundary Layer Theory - January 4, 2023 by Dr. Sagar Agnihotri of UPASLA, University Sweden, conducted a webinar on boundary layer theory, which benefited 2M and 3M students. SCIENTICA: A science day competition was held on February 28, 2023, featuring a science-based movie and competition provides insights into the work of a renowned scientist and served as a source of inspiration for aspiring scientists and engineers. Expert Talk on Opportunities for core Engineering Students in Power Sector on March 27, 2023 by Mr. Atul Kumar Bhole, Chief Superintendent at Kakrapar NPP, NPCL, Gujarat, attended by 3M and 4M students, along with faculties from Mech and Elect departments.

Mechscout, which is a treasure hunt event and The Workshop on Filmflash with Wondershare Filmora added technical and creative skills to the participants as covered with the basics of video editing.

The IEI Mech Student chapter is one of the platform of the student by the students for the student's over all & consistent development of the student.

Shri Sant Gajanan Maharaj College of Engineering, Shegaon

Pursuit-2023

7th – 8th April 2023

Pursuit Report

Shri Sant Gajanan Maharaj College of Engineering, Shegaon organized a national level technical symposium, **Pursuit 2023**, on 7th and 8th April 2023. The aim of this symposium was to provide a platform for engineering students from various colleges to showcase their talents and skills. The event witnessed a participation of **781** students from renowned colleges, who actively took part in 9 different technical events and 8 skill development workshops. Pursuit 2023 was a grand success, attracting students with a competitive spirit to showcase their achievements and accomplishments.

The technical events included WEB-A-THON, Technofesta, Battle of Electronics, Mechscout, Speranza, Enigma 3.0, Grand Project Expo/ Technovation, Stranger Things, organized by different chapters like IEEE, ISTE, IEI-Electrical, IEI-Mechanical, ACM, Mozilla Campus Club, Electronics and Telecommunication, Information Technology, and Computer Science and Engineering student chapters. The workshops included UI/UX Designing, Introduction to Python with Data Science, Hello to Embedded System, Filmflash with Wondershare Filmora, Introduction to Web Development, Introduction to Cybersecurity, Stock Market 101: An Introduction to Investing, 3D Modelling in AR/VR Using Blender. The workshops were conducted by students for students, providing a unique opportunity for knowledge sharing and interaction.

Shri Raju Kendre, CEO, Eklavya India, Forbes and HT 30 Under 30, Chevening Scholar, FCDO, UK, was the chief guest at the inaugural function of Pursuit 2023. **Shri Jagannath Nagre**, Village Development Officer, Buldana, Member- Save the Soil Mission also addressed the students about project work at village development. The inaugural function began with the national anthem and was attended by Dr. S. B. Somani, Principal, Mr. S. P. Badar- Pursuit-2023, Chief Coordinator, and Dr. M. A. Dande, Parishkriti-2023, Chief-Coordinator. The guests enlightened the students about their personality development, scope for innovation, and advised students to find opportunities for research, higher education, and village development which would help society.

The valedictory function was held on the second day of Pursuit, where the winners of all the events were awarded with certificates and prizes. The participants were also given certificates as a token of appreciation. Student coordinators, workshop resource persons, and volunteers were awarded with appreciation certificates. The event was powered by Vithoba Industries Pvt Ltd and sponsored by CDOT Systems Pvt Ltd.

The success of Pursuit 2023 can be attributed to the efforts put in by the members of each student chapter, motivated and dedicated faculties, and the support of the SSGMCE family. The symposium was a great success beyond expectations, and for this we express gratitude to our Hon'ble Shri. Shrikantdada Patil, Managing Director, SSGMCE, Shegaon for their valuable support and encouragement. We are also thankful to our respected Principal Dr. S. B. Somani for his motivation and guidance. We extend our gratitude to all the committee members teaching and non-teaching, administrative staff and our dedicated students. We extend our most

sincere thanks to the entire SSGMCE family for their persistent support, guidance for making PURSUIT-2023 a great success.

3D MODELLING IN AR/VR USING BLENDER SOFTWARE

Join us for an exciting workshop on "3D Modelling in AR/VR using Blender." This workshop is designed to introduce you to the fundamentals of 3D modelling using the popular software, Blender. Discover how to create 3D models and bring them to life in Augmented and Virtual Reality environments. This workshop is perfect for beginners and professionals alike who are interested in the field of 3D modeling and AR/VR. Don't miss this opportunity to learn from the best!

PURSUIT 2023

RULES & REGULATIONS

Eligibility Criteria:

1

- The Pursuit is open to all students of engineering, science, or other relevant fields from recognized institutions.
- Participants must have a valid college ID card.

Registration Process:

2

- Participants must register online using the official website of the technical fest.
- The registration fee must be paid online and is non-refundable.

Events

3

- The technical fest will have various events, including technical competitions, workshops, seminars, and exhibitions.
- Participants can participate in multiple events, subject to availability.

Code of Conduct:

4

- Participants must behave in a professional and respectful manner at all times.
- Participants must follow the instructions of the organizers and event coordinators.
- Participants must not engage in any activities that violate ethical or moral standards.

Disclaimers and Liability:

5

- The organizers reserve the right to disqualify any participant who violates the rules and regulations of the event.
- The organizers will not be responsible for any loss or damage to personal property or any injury sustained during the event.

SCHEDULE PURSUIT 2023

DAY 1		SPERANZA	8:00AM-12:00PM	INTRODUCTION TO WEB DEVELOPMENT
DAY 2	12:00PM-3:00PM	SEMINAR HALL ELECTRICAL DEPT		A3 CLASS ROOM ELECTRICAL DEPT CS LAB ELECTRICAL DEPT
DAY 1	8:00AM-9:00AM	STRANGER THINGS	8:00AM-9:00AM	STOCK MARKET 101:
DAY 2	8:00AM-9:00AM	SWADHYAY KAKSH	8:00AM-9:00AM	AN INTRODUCTION TO INVESTING SWADHYAY KAKSH

SAEINDIA Students Chapter

Department of Mechanical Engineering

Under the auspices of our institute's Mechanical Engineering department, SAEINDIA Student Chapter is active. 30 members of Team X-treme from the mechanical, electrical, electronic, and telecommunications fields are now working in this chapter. The team's major goals are to participate in a national competition, learn more about the field of advanced automotive technology, and get involved in the development and manufacture of a car.

Electric Go-Kart

This year, our team planned and created an electric go-kart for the "National Electric Kart Competition (NEKC)" that will take place in Bhopal in June 2023. The institution has provided financial assistance and approved two lakh rupees for the manufacturing of the electric go-kart. Along with working during non-class hours, the captain, vice captains, and team members designed and built the electric go-kart in accordance with the rules throughout the semester.

On 23rd Feb 2023 organized orientation programme of National Electric Kart championship (NEKC) at mechanical workshop hall by the team X-terme. More than 20 students get benefitted from this workshop.

Prof. M.B. Bhambere

Participative learning

Participative learning is a key component of student-centric methods as it places students at the centre of the learning process, actively involving them in their educational journey. In a student-centric approach, the emphasis is on the learner's needs, interests, and active engagement.

Key Participative learning techniques employed at SSGMCE include the following components.

Collaborative Group learning: Group learning activities at SSGMCE are meticulously crafted to cultivate collaboration, sharpen problem-solving skills, and facilitate effective communication among students. These initiatives inspire students to collaborate seamlessly, addressing engineering challenges collectively and deepening their comprehension of intricate concepts. The following programs exemplify this commitment to collaborative learning:

Group Projects: Students engage in project teams, bringing together individuals with diverse skills and knowledge

Project Report

Under SAEINDIA students chapter, this year team X-treme was formed and team has designed and manufactured Campus utility electric vehicle at college workshop. Here the details about team X-treme.

About Team X-treme :-

Team X-treme is an interdisciplinary project club of Shri Sant Gajanan Maharaj College of Engineering, which includes students from different branches of Engineering. It is a platform for students to showcase their ideas and work on it. Team X-treme gives numerous opportunities and work experience to the students. It significantly aims to give goal-oriented problem statements to the students to collect best and out of the box solutions from them. It focus on the overall development of students with technical as well as practical knowledge.

Objective :-

Team X-treme is currently working on an Electric Vehicle Project called Campus Utility Vehicle, we are manufacturing a BEV for College Utility purpose, with this we are also participating in National level competition CUV 2021.

Our mission:-

To promote Green Energy, we as a young innovator are trying our level best to foster our ideas and skills from engineering background. The purpose of backing this ideas and skill hard work is to bring the idea to value and figure out optimum ways to utilise our college sources to best.

Team X-treme is primarily a team consisting of 30 engineering students. It was formed on 15th August 2020 in the presence of the team captain Mr. Sumit Thakare and the faculty advisor M.B.Bhambere Sir. On special note is that the students in Team X-treme are from different disciplines such as Mechanical Engineering, Electrical Engineering, Electronics and Telecommunication Engineering. These 30 students were further divided and they shared various tasks. Each of them got the knowledge required in the tasks assigned to them through

various means. The students of Team X-treme succeeded in realizing their dream of seeing a useful electric vehicle on campus. The important thing is that when Team X-treme was dreaming of this, the time when various multinational companies around the world were closed was the time of lockdown.

While at home during the lockdown, the students tried to apply the knowledge required in this project from various fields. The final year students shared their knowledge and experience through various workshops with their juniors. The planning for the project was done by the students at home and the entire team had to be present in the school to make this plan a reality.

The work started on 1st August 2021 with the students working hard day and night designed according to international standards, overcoming the ups and downs situations a very beautiful and innovative vehicle. The Team has total 30 student participants, excluding department heads, faculty advisors and some teachers and staff. With the guidance and financial assistance of the Honourable Director sir, the project has been successfully completed.

[Finally team x-treme have completed the CUV and inaugurated by honourable Director sir on 21/12/2021]

Team X-treme with honourable Director Sir

[The total budget was Rs 2.87 Lakh sponsored by honourable management]

Main features of designed CUV:

- Max Speed 35 km/hr set as per ARAI norms for unregistered Vehicles.
- 70-80 Kms in single Charge
- Load capacity 500 kg Payload + 500 kerb weight.
- High Torque 2 kw Bldc motor.
- Integrated Cooling system for Controller.
- Advanced Computer System.
- Reverse parking Sensors which shows exact distance from rear object.
- Smart programmable Charger which adjust itself for different battery types and voltage.

Project Report

Design and Manufacturing of Electric Go-Kart

Unleash the future: Electric thrills on wheels by join he karting nation, fuel your adrenaline fixation! Karting is a type of racing in which a compact four wheel nit called a Go Kart.

About Electric Go-Kart:	<p>'National Electric Kart Championship' (NEKC) is a peculiar concept in the era of Go karting. In recent years Go-karting has embossed its way in the field of racing competition. As Gokarts has been running on engines from past years, but NEKC has lured it by introducing the concept of using Electric motor as a driving source of energy. It is proving out to be an eco-friendly concept, which is much needed for our upcoming generations. The objective of NEKC is to provide a gateway to the future engineers to design, fabricate and conceive an Electric Go- kart.</p>
Mission:	<p>Our mission is to promote Green Energy; we as an young innovator are trying our level best to foster our ideas and skills from engineering background. The purpose of backing these ideas and skilled hard work is to bring the ideas to value and figure out the optimum ways to utilize our college sources to its best.</p>
Benefits of Electric Go-Kart:	<p>From this project, students can gain the knowledge of electric vehicle designing and new innovation in automobile sector. As industry 4.0 is arriving very fast and after this pandemic there will be more opportunities for students.</p> <p>Investing time and effort in students has benefits for young people and the community as a whole. Tying the school curriculum together with exciting, ongoing projects is a powerful way to connect students with new career options. New economic opportunities also represent a broader opportunity to bring the members of the community closer together. Go-karts are really fun.</p>
Registration:	<ul style="list-style-type: none">• Team registration: Team registration fees: ₹ 12600 (Inclusive of All Taxes) per team.• Vehicle Registration: Vehicle Registration fees: ₹ 18500 (Inclusive of All Taxes) per team.

Design Competitions

Participating in design competitions seamlessly integrates with student-centered learning, fostering a dynamic and engaging educational experience. These competitions serve as simulations of real-world scenarios and industry practices, enabling students to actively immerse themselves in industry standards, best practices, and the hands-on application of engineering concepts. SSGMCE, recognizing the significance of this practical exposure, provides a conducive atmosphere where students can actively acquire and apply valuable industry insights.

Hearty Congratulations!

Shri Sant Gajanan Maharaj College of Engineering, Shegaon won **2nd Rank at National Level 13th edition of the Cadence Design Contest at Bangalore** on 23rd Jan 2019, amongst esteemed institutes like IITs, IISc, NITs, and BITS. This cadence contest had three rounds of rigorous evaluation process by an expert committee from VLSI design. The criteria for evaluation were inventiveness, complexity, and feasibility, breadth of VLSI design, effective cadence tool usage, and presentation. These students will be given **paid internship by Cadence at Bangalore**

Student Clubs

Student clubs at SSGMCE provide valuable opportunities for participative learning by fostering an environment where students actively engage, collaborate, and take the lead in various activities. Student clubs initiate and execute hands-on projects related to their field of interest. Members actively participate in planning, designing, and implementing these projects, gaining practical experience.

Mozilla Club

The Mozilla Campus Club at SSGMCE is a vibrant and dynamic student organization dedicated to fostering innovation, collaboration, and technology-driven learning. As an integral part of the campus community, the club serves as a hub for students passionate about technology, open-source development, and digital literacy.

The club hosted a variety of events.

moz://a Campus Club

About Club

A Mozilla Club brings people together locally to build the open web on University and College campuses worldwide. The Internet is more than computers and code. The Internet is about people. And this is what Mozilla Clubs are all about: interacting with others to share, learn, teach, protect and build upon platforms, to make things that matter. Our Clubs are human structures that make the web real.

Mozilla Campus Clubs are Mozilla Clubs that take place at a university or College - These clubs take advantage of the unique learning environments of Universities and Colleges to bring students with a passion for technology together to build and innovate on open source projects that build the open web.

History:

Long before Mozilla's first formal student program, "Campus Reps", opened its doors in 2008, students have been playing a crucial role in the development of Mozilla and the web itself.

The student-built Lynx browser was one of the first and Mosaic (Firefox's distant ancestor!), pioneered by students and staff, opened the graphical web to millions. Many of the original community members who worked on the first firefox in 2002 were students just like you.

A lot has happened on Campuses since then:

- In 2012 the Firefox Student Ambassador Program opened its doors to bring together individuals with a passion for Mozilla who wanted to raise awareness about the many benefits of Firefox & other Mozilla products.
- In 2013 the first Maker Party moved students all around the world to come together to teach the web.
- In 2015 the Clubs program started with a mandate to engage people around the world in ongoing web literacy programs.
- In 2015 Mozilla Science started offering Study Groups for graduate students, researchers, and scientists looking to learn together.
- In 2016 hundreds of students around the world led the Take Back the Web Campaign on their campuses to shift attitudes and change behavior around privacy and security online.
- In late 2016 Campus Clubs was created to carry the work of the Take Back The Web campaign forward but now with an even stronger focus on open source and engaging students in building open web technologies.

Vision:

Mozilla campus club vision is to engage the highest quality university student programs you've ever heard of. Programs that incite invention, inspire innovation, and foster global change. program that engaged students all over the world, building campus groups that each have hundreds of passionate volunteers contributing to Mozilla as advocates, technologists, and innovator these groups were on thousands of university campuses in hundreds of countries.

That is the vision for Campus Clubs. To spark a movement -- a loud voice, a breeding ground for new ideas, a massive force, a deep talent pool -- that powers the open web to new heights.

At the start of each year, Campus Clubs plan the impact they want to have for the open web and then hack and build on a combination of recommended activities and their own open-source projects to make a difference for the web, their campuses and communities.

Mission:

Our mission is to ensure the Internet is a global public resource, open and accessible to all. An Internet that truly puts people first, where individuals can shape their own experience and are empowered, safe and independent.

We believe that students are uniquely positioned to make a difference in the world and that by bringing together local groups who care about the internet we can achieve great things.

Event under Mozilla club:

Title of the Event: Student Awareness session on "AWS Cloud Architecting"

Date:27/02/2023. to 02/03/2023.

Event 1 : Student Awareness session on "AWS Cloud Architecting"

The poster for Event 1 features a dark blue and green background with a person's silhouette. It includes the logos of AWS Academy SSGMCE and Mozilla Campus Club. The text reads: "MOZILLA CAMPUS CLUB, SSGMCE Organizes session on 'AWARENESS ON AWS ACADEMY COURSES'". Two white diamond shapes contain the text "CLOUD ARCHITECTURING" and "LEARNER'S LAB". The speakers listed are Mrs. S. N. Khandare (Faculty advisor, Mozilla SSGMCE), Dr. A. S. Manekar (HOD, IT Department), and Dr. S. B. Somani (Principal, SSGMCE). The event details are: Date: 19th March 2023, Time: 5:00 pm, Platform: Google Meet (https://meet.google.com/ovo-oajd-nmx). A QR code is provided for scanning to join. Social media handles for @mozillassgmce, @ssgmceofficialpage, linkedin.com/in/ssgmce, and @AlumniSsgmce are listed at the bottom.

Event 2 : Expert talk on "Industry 4.0" by Ms. Medha Deshpande head of IoT platform at expert global solutions, Aurangabad

The poster for Event 2 has a yellow and white background. It features the logos of Institution's Innovation Council (Ministry of HRD Initiative), Mozilla Campus Club, and SSGMCE Shegaon. The text reads: "INSTITUTION'S INNOVATION COUNCIL & MOZILLA CAMPUS CLUB Presents Expert Talk : 'INDUSTRY 4.0'". The speakers listed are Prof. S. N. Khandare (Faculty Advisor), Dr. A. S. Manekar (HoD, IT), and Dr. S. B. Somani (Principal, SSGMCE). The event details are: Date: 20th March 2023, Time: 2.15 PM Onwards, Venue: New Seminar Hall. A circular portrait of Mrs. Medha Deshpande is shown on the right, with her name and title: "Mrs. Medha Deshpande Head (IoT Platforms) at Expert Global Solutions (An ALTEN Company), Ch. Sambhajanagar". Social media handles for @mozillassgmce, @IC-SSGMCEShegaon, linkedin.com/in/ssgmce, and @AlumniSsgmce are listed at the bottom.

Shri Sant Gajanan Maharaj College of Engineering, Shegaon

Information Technology Department

“Awareness Workshop on”

Program Title: AWS Academy Courses.

Date: 27th Feb 2023 to 1st March 2023

Time: 06:00 PM to 8:00 PM All Days

Location: Web Tech Lab, SSGMCE Shegaon

Organized By: Department of Information Technology.

Resource Person: Mr. Amit Molke, Miss. Ruchika Bhagat, Mr. Saurabh Wankhade

Number of Participants: 30

Objectives:

1. **Education:** AWS Academy aims to deliver high-quality, up-to-date cloud computing education to students and professionals, helping them understand AWS services and solutions.
2. **Skill Development:** The program focuses on developing practical, hands-on skills in cloud computing and AWS services, enabling individuals to build and manage applications in the AWS cloud environment.
3. **Certification Preparation:** AWS Academy prepares students for AWS Certification exams, helping them become AWS Certified, which is valuable in the job market.
4. **Workforce Development:** By offering AWS training and certification preparation, AWS Academy contributes to building a skilled workforce capable of meeting the increasing demand for cloud computing professionals.
5. **Curriculum Development:** AWS Academy provides institutions with ready-made, up-to-date cloud computing curricula and resources that can be integrated into their existing programs or used to create new courses.
6. **Partnering with Educational Institutions:** AWS Academy collaborates with educational institutions to create a community of educators and students interested in cloud computing, fostering a supportive learning environment.

7. **Industry-Relevant Knowledge:** AWS Academy ensures that the training content reflects real-world industry needs and best practices, allowing students to apply their knowledge in professional settings.
8. **Global Reach:** AWS Academy is available in many countries, helping to make cloud computing education accessible worldwide.

Courses Highlights:

Course 1: AWS Academy Cloud Foundation

The AWS Academy Cloud Foundation course is designed to provide students with a fundamental understanding of cloud computing and Amazon Web Services (AWS). This course serves as an entry point for those looking to build a strong foundation in cloud technologies. Here are the key details:

1.Course Overview: The AWS Academy Cloud Foundation course is an instructor-led training program that covers the basics of cloud computing, AWS services, and architectural best practices.

2.Content: The course content includes an introduction to the AWS Cloud, AWS global infrastructure, core AWS services (such as EC2, S3, RDS), security and compliance, pricing, and the Well-Architected Framework.

3.Duration: The course typically spans around 2-3 months, consisting of approximately 40-60 hours of instruction. It may be delivered in a classroom setting or online, depending on the institution offering the course.

4.Target Audience: This course is suitable for students, IT professionals, and anyone interested in gaining a foundational understanding of AWS and cloud computing. It is often a prerequisite for more advanced AWS certifications.

5. Certification: While this course itself doesn't lead to an AWS certification, it prepares students for the AWS Certified Cloud Practitioner exam, which is a valuable certification to have as it validates your basic AWS knowledge.

6. Hands-On Labs: Typically, students engage in practical, hands-on labs to apply what they've learned, helping them gain real-world experience with AWS services.

Course 2: AWS Academy Cloud Architect course:

1. Course Overview: The AWS Academy Cloud Architect course is designed to provide students with a comprehensive understanding of cloud architecture and Amazon Web Services (AWS). It's a more advanced program compared to the Cloud Foundation course, focusing on cloud design and architecture.

2. Content: The course content delves into advanced architectural concepts, including high availability, scalability, security, and optimization of AWS services. Students learn how to design and implement cloud solutions using AWS.

3. Duration: The AWS Academy Cloud Architect course is typically more extensive, spanning around 12 to 16 weeks. It includes in-depth instruction and hands-on experience.

4. Target Audience: This course is suitable for students and IT professionals who want to specialize in cloud architecture and AWS solutions. It's ideal for those looking to become AWS Certified Solutions Architects.

5. Certification: While the course itself doesn't provide a certification, it thoroughly prepares students to pursue the AWS Certified Solutions Architect certification, which is highly sought after in the industry.

6. Hands-On Labs: Like the Cloud Foundation course, students engage in practical labs to apply architectural principles, design solutions, and gain hands-on experience.

Outcome:

- AWS Academy can provide students with the knowledge, skills, and industry recognition needed to excel in the field of cloud computing, offering a pathway to a rewarding and in-demand career.
- AWS Academy Cloud Foundation provides Students who successfully complete the course are well-prepared to take the AWS Certified Cloud Practitioner exam and enter the world of cloud computing with confidence.
- The AWS Academy Cloud Architect course provides a more in-depth exploration of cloud architecture and AWS services, making it a valuable choice for those looking to specialize in cloud design and solution architecture. The longer duration allows for a deeper understanding of these complex topics.

Introduction to GDSC

Overview

This comprehensive report offers a detailed account of the Onboarding Session conducted at SSGMCE College to introduce students to the Google Developer Student Club (GDSC). The session was led by Mr. Saurabh Wankhede, a fellow student, and was supported by core team members, including Vaibhav Bavaskar, Ruchika Bhagat, Amit Molke, Vaishnavi Dabhade, and Saurabh Gaikwad. Dr. Amitkumar Manekar, the Head of the Information Technology Department, was also present to lend his support.

Event Summary:

The Onboarding Session aimed to familiarize students with GDSC, its purpose, and its relevance in their academic and professional journeys. It served as a bridge to introduce students to the world of technology and innovation through GDSC.

Leadership and Team:

Key players in the event included:

- **Mr. Saurabh Wankhede (GDSC Lead):** Saurabh played a central role in guiding the session and instilling enthusiasm among the students about GDSC.

- **Core Team Members:** These students provided essential support in organizing the event, ensuring its smooth execution.

- **Dr. Amitkumar Manekar (Faculty Advisor):** Dr. Manekar, the Faculty Advisor of GDSC, shared his valuable insights and provided students with guidance and motivation.

What Was Covered:

During the session, students were introduced to the following aspects:

1. **What is GDSC:** The students were introduced to GDSC, a group of like-minded students passionate about technology, eager to learn, and explore the ever-evolving world of technology.
2. **Why GDSC Matters:** The session highlighted why being part of GDSC is beneficial. It provides opportunities for learning, networking, and gaining practical exposure to technology.
3. **What GDSC Plans:** The students were given a glimpse of GDSC's objectives and future plans for the academic year,

showcasing the diverse activities and opportunities available to them.

4. **Getting Involved:** The importance of active participation in GDSC activities was emphasized. Students were encouraged to engage actively, share their ideas, and take part in shaping the community's initiatives.

5. **Benefits for Students:** The session emphasized the benefits of GDSC membership, including skill development, mentorship, opportunities for projects and collaborations, and access to industry professionals.

6. **Upcoming Events:** The students received a preview of the upcoming events and activities planned by GDSC, sparking excitement and anticipation.

Faculty Advisor's Words:

Dr. Amitkumar Manekar addressed the students, underlining the significance of GDSC in fostering a culture of innovation, collaboration, and continuous learning within the college. He praised the GDSC team for their

efforts and encouraged students to seize the opportunities offered by the community.

Conclusion:

The Onboarding Session at SSGMCE College was a resounding success, introducing students to the GDSC community, its purpose, and its potential impact on their educational and career journeys. The event was characterized by effective leadership, a dedicated team, and the invaluable presence of the Faculty Advisor, Dr. Amitkumar Manekar. It served as a solid starting point for students, ensuring they were well-informed about the myriad opportunities and benefits GDSC offers. The event laid the groundwork for students' active participation in GDSC activities, igniting their enthusiasm and commitment to the world of technology and innovation.

Google Cloud Study Jams – 2023

Introduction:

The Google Cloud Study Jams event hosted by the Google Developer Student Club (GDSC) SSGMCE chapter was a transformative educational experience designed to equip students with hands-on knowledge of Google Cloud technology. This comprehensive report delves into the event, its objectives, and the notable achievements of this **one-month-long** training event.

Event Overview:

With an overwhelming response, approximately 160 students registered for this enlightening event. The event was spearheaded by Apurv Gore, a student of Class 2N, who was selected as the Google Cloud Facilitator for the event by GDSC India. The event was kicked off with the collective

efforts of the entire GDSC team, including its lead, Mr. Saurabh Wankhede, a student of class 4N and facilitator, who played pivotal roles in helping participants get started on their Google Cloud journey.

Course Offerings:

The event featured two distinct and highly relevant courses for the participants:

1. **Google Cloud Computing Fundamentals:** This course served as an introductory gateway into the vast realm of Google Cloud. It provided a solid foundation by exploring core concepts, services, and best practices.
2. **Generative AI Arcade Game:** The second course dived deep into the exciting field of generative AI demonstrating the practical application of AI technology in a fun and interactive way.

Offline Sessions:

The GDSC team organized three offline sessions to complement the online course materials. These in-person gatherings allowed students to engage with their peers and facilitators, ask questions, and receive immediate guidance. The team's performance during these sessions was exemplary, showcasing strong leadership and mentoring skills.

Guidance from Faculty Advisor:

Dr. Amitkumar Manekar, the Head of the Department of Information Technology and Faculty Advisor of GDSC SSGMCE, played a pivotal role in ensuring the event's success. His guidance and mentorship were instrumental in shaping the event's structure and coordinating various activities.

Student Support and Engagement:

Throughout the event, the GDSC team demonstrated a high level of dedication and commitment to supporting the

participants. They proactively addressed queries on a daily basis, providing prompt and personalized assistance to those encountering challenges. The introduction of a Leaderboard added a competitive element, further motivating participants to complete their courses and engage actively in the event.

Achievements:

As the event drew to a close, the remarkable dedication and effort put forth by all stakeholders paid off. Approximately 80 students successfully completed both courses, propelling the GDSC SSGMCE chapter to Tier 1, the highest recognition tier awarded by GDSC. This achievement reflected the collaborative spirit, strong leadership, and relentless pursuit of educational excellence.

Metric	Value
No. of students enrolled	162
No. of correct students enrolled	160
No. of Google Cloud Computing Foundations Course completions	80
No. of Gen AI Arcade Game completions	90
No. of incorrect applications	2
Total No. of participants completing both pathways <i>(Note: This will be considered for the milestone evaluation)</i>	80

Congratulations, based on the completions from your campus, you're in **Tier 1** of the campaign milestones!

See the progress for your milestones below!

You've done it! You have successfully completed the first milestone in the program. Give yourself a huge round of applause - this was not an easy task and you came out with flying colors. Remember: the main motive of this program is to help students learn and build more using Google Cloud. So keep on helping students. Happy Facilitating! :)

Tier #1: Enable 80 students to complete the Google Cloud Computing Foundations Pathway and GenAI Arcade Game 🏆

100% Completed 80/80

Tier #2: Enable 60 students to complete the Google Cloud Computing Foundations Pathway and GenAI Arcade Game 🏆

100% Completed 60/60

Tier #3: Enable 40 students to complete the Google Cloud Computing Foundations Pathway and GenAI Arcade Game 🏆

100% Completed 40/40

Certificates and Goodies:

Certificates were distributed to all participants as a testament to their hard work and accomplishments during the Google Cloud Study Jams event. Additionally, GDSC will reward participants who completed the course with goodies, enhancing the sense of achievement and recognition.

Conclusion:

The Google Cloud Study Jams event hosted by GDSC SSGMCE stands as a testament to the potential of collaborative educational initiatives within the tech community. This event provided an invaluable platform for students to gain hands-on experience with Google Cloud technology. It was a true showcase of the power of mentorship, teamwork, and commitment in achieving educational objectives.

In conclusion, the event marked a significant milestone for GDSC SSGMCE, setting a high standard for future initiatives and demonstrating the tangible impact of technology-focused community engagement. The Google Cloud Study Jams event was an exemplary model of how educational organizations and passionate students can collaborate to empower the next generation of tech enthusiasts.

SSGMCE-RedHat Learning Academy Awareness and courses

Program Title: RedHat Academy Courses.

Date: 12 May 2023 to 15 May 2023

Time: 08:00 AM to 10:00 AM All Days

Location: Online through Google Meet

Organized By: Department of Information Technology.

Recourse Person: Prof. Mrs. S. N. Khandare

Number of Participants: 30

Objectives:

1. **Linux Administration:** Red Hat Academy often focuses on teaching Linux administration skills, including user and group management, file system management, shell scripting, and system security.
2. **Red Hat Enterprise Linux (RHEL):** Many Red Hat Academy courses revolve around RHEL, aiming to teach students how to install, configure, and manage RHEL servers.
3. **Server Virtualization:** Some courses may cover virtualization technologies like Red Hat Virtualization, helping students understand how to create and manage virtual machines.
4. **Containerization:** Learning objectives might also include containerization technologies like Docker and Kubernetes for managing containerized applications.
5. **Security:** Security is a significant focus, with learning objectives covering topics like securing Linux systems, implementing firewalls, and understanding Linux.

Courses Highlights:

Course: Red Hat OpenShift I: Containers & Kubernetes (DO180)

The Red Hat OpenShift I: Containers & Kubernetes (DO180) course is part of the Red Hat training and certification program. It is designed to provide individuals with a foundational

understanding of containerization and container orchestration using Kubernetes and Red Hat OpenShift. Below are some of the key topics and highlights covered in this course:

1. Containerization Concepts:

- Introduction to containerization and Docker.
- Understanding container images and containers.

2. Container Orchestration with Kubernetes:

- Introduction to Kubernetes and its architecture.
- Deploying and managing containerized applications with Kubernetes.

3. Red Hat OpenShift Overview:

- An introduction to Red Hat OpenShift and its features.
- Differences between Kubernetes and OpenShift.

4. Creating and Managing Containers:

- Building container images.
- Running and managing containers.

5. Kubernetes and OpenShift Basics:

- Deploying applications with Kubernetes and OpenShift.
- Managing pods, services, and replication controllers.

6. Using the Command Line:

- Working with Kubernetes and OpenShift using command-line tools.
- Managing resources and troubleshooting.

7. Deploying Applications:

- Deploying applications with OpenShift.
- Scaling applications and rolling updates.

8. Managing and Securing Resources:

- Resource management with quotas and limits.
- Configuring security context constraints (SCCs).

9. Using Persistent Storage:

- Configuring and managing persistent storage for applications.
- Using dynamic provisioning.

10. Networking in OpenShift:

- Networking concepts in OpenShift.
- Configuring services and routes.

11. Access Control:

- Managing users and groups.
- Implementing role-based access control (RBAC).

12. Container Security:

- Implementing security best practices for containers.
- Scanning container images for vulnerabilities.

13. Monitoring and Logging:

- Monitoring application performance.
- Collecting and analyzing logs.

14. Deploying and Managing Applications:

- Deploying applications with source-to-image (S2I).
- Deploying applications from container images.

15. Customizing Deployments:

- Configuring environment variables and secrets.
- Rolling back deployments.
-

Course Outcomes the: Red Hat OpenShift I: Containers & Kubernetes course is intended to provide hands-on experience with Red Hat's OpenShift platform and Kubernetes, making it valuable for individuals and organizations looking to deploy, manage, and scale containerized applications in a modern cloud-native environment. Please note that the course content may have evolved or been updated, so it's advisable to check with Red Hat for the most current course information and certification objectives.

Glimpses :

The screenshot shows a Google Meet interface during a presentation. The top bar indicates 'You're presenting to everyone' and 'Stop presenting'. The main area displays a grid of participants: Ishwar Rajesh Sharma, Nikita Warade, Pavan Gautam, Divya Thanvi, and a group of 17 others. A 'You' tile is visible in the bottom right corner. The bottom status bar shows the time as 9:30 AM, the session title 'RHALP access and awareness session', and various meeting controls like mute, video, chat, and end call. The Windows taskbar at the bottom shows the system tray with a temperature of 32°C Sunny and the date 12-May-23.

Hackathons:

Hackathons present real-world problems that require innovative solutions. Students actively engage in problem-solving, applying theoretical knowledge to create practical solutions within a constrained timeframe. Notably, at SSGMCE, students enthusiastically participate in these hackathon competitions, driven by the encouragement and guidance provided by the dedicated faculty. The active involvement of both students and faculty members underscores the commitment to fostering a culture of innovation, collaboration, and hands-on learning within the institution.

At the Smart India Hackathon-2019 in Indore, Team SSGMCE secured the first prize, earning a cash prize of Rs. 50,000. The team comprised Sandip Kumar, Shantanu Gawande, Maroof Ahmad, Yash Paliwal, Bidisha Nose, and Aditi Mujmer. Their winning project focused on addressing the issue of counterfeiting of products for MSME Solan

स्मार्ट इंडिया हैकेथॉन में अभियांत्रिकी के छात्रों की सफलता

राष्ट्र संवाददाता | टोर्गांव

भारत सरकार के मनुष्यबल विकास मंत्रालय तथा ए. आई. सी. टी. ई. के संयुक्त तालाबधान में लिए गए स्मार्ट इंडिया हैकेथॉन २०१९ में श्री संत गजानन महाराज अभियांत्रिकी के छात्रों को प्रथम पुरस्कार मिला। प्रधानमंत्री मोदी के 'स्मार्ट इंडिया इस महत्वाकांक्षी प्रकल्प का एक भाग के तौर पर आयोजित इस हैकेथॉन में 'देशसमोरच्या प्रश्नांच्या यशस्वी हाताळणी' इस नई कल्पक युवा को अवसर देने के उद्देश से यह स्पर्धा हर साल आयोजित की जाती है। पुराने सवालो की ओर देखने के पारंपारिक दृष्टिकोण को बदलने के लिए 'आऊट ऑफ द बॉक्स, विचार करने वाले युवा अभिरचना को मीका देने, केंद्र सरकार एवं राज्य सरकार के विविध मंत्रालय व्दारा एवं निजी बहुराष्ट्रीय कंपनियों व्दारा उन्हें 'भेदसावधान्या प्रवर्तनी/ समस्या ' की सूची मंगाई जाती है। उसमें से प्राधान्यक्रमों के सवाल देश के युवा अभिरचनाओं के सामने रखे जाते हैं। उन्हें जवाबों का प्रकल्प पेश करने के लिए कहा जाता है। महाविद्यालय व्दारा ६३ टीमों इस्में शामिल हुई थीं, जिसमें से ८ टीमों अंतिम मुकाबले के लिए पात्र रहरी। पूरे देश से कुल ४८ जगहों पर यह स्पर्धा हुई। महाविद्यालय के इंदोर यार्ड की टीम ने प्रथम पुरस्कार हासिल कर महाविद्यालय का नाम ऊंचा किया। एम.एस.एम.ई सोलन के काउंटरफिटिंग ऑफ प्रोडक्ट, इन सवालों के लिए छात्रों ने सविस्तर प्रकल्प प्रस्तुतीकरण किए। सफल छात्रों में सदिप कुमार, शंतनु गावडे, मारूफ अहमद, यश पालिवाल, बिदिशा बोस तथा अदिली मुजमेर इनका समावेश था। उन्हें ५० हजार रुपये का प्रथम पुरस्कार मिला। महाविद्यालय के छात्र पूरे साल विविध स्पर्धा में भाग लेकर सफलता हासिल करते हैं। महाविद्यालय व्दारा आवश्यक सभी बातों की पूर्ति की जाती है। महाविद्यालय के संचालक श्रीकांतदादा पाटिल, प्राचार्य डा. एस.बी. सोमगौरी तथा प्राध्यापक एवं शिक्षकेतर कर्मचारियों ने सफल छात्रों का अभिनंदन किया। **भावेश शर्मा**

Problem Statement

The counterfeit problem (IPR Issues) the traditional MSME are struggling with many factors, one of major factor is that counterfeit products being sold on the name of traditional msme products such as Kullu Shawl. A mechanism needs to be derived using technologies to ensure the entry barriers and vigilance of such counterfeit products, which holds Graphical Index (GI) which will create positive effects in increasing the share of MSMEs.

Our Approach

In QR code encapsulated authentication and Barcode, RFID tracking system our objective is to restrict the entry of counterfeit products and check the authenticity of the product. In this system Manufacturer dispatches the product to the Distributor (Next user) with RFID tracking tag (for lot sizes), individual product tagged barcode and One-Time Encapsulated QR code. The stock received thereby is updated in the database by the Distributor by scanning the RFID tag, thereon the product is dispatched forward to Retailer (Next User), who scans individual Barcode and updates the database about the product position. So tracking of each product is updated in the database.

The authenticity of the product is verified on the basis of two parameters:

1. Encapsulated (hidden) one time QR code. Each product will have an Unique-Id integrated within the QR code. The consumer will need to decapsulate the QRcode scan it, copy the generated Unique-Id to Consumers UI and submit to the system, along with his location access. The database will verify the Unique-Id and number of scan attempts (the Unique-id will generate authenticate result only for first-time scan). If the QRcode is attempted to scan more than once it will notify manufacturer along with location (of scanning) details.
2. Location Based Verification: to overcome the challenge of one time QR code being copied, the system for authenticity, will ask the End Users location. This location of End User will be compared with that of Retailer (EndUser-1) updated location. If both the location match with certain degree of accuracy then this

condition will be satisfied. After checking both conditions the system will generate authenticity report for the consumer.

The system herein aims to maximise the existing model efficiency by using innovation and making it robust.

3 days in SIH

Arrival

We arrive 1st march 11:00 AM then we completed the registration procedure, we did incremental contribution in our system prior to the competition day with the objective to complete about 70-75% of the basic working of the project.

Coding started at about 8:20 AM on 2nd of march, after the inauguration and video speeches by dignitaries.

Mentoring session

Jury visited for the first round of mentoring at around 11AM mainly to check the solution approach, its alignment with the problem, feasibility, introduction. Jury asked about requirement of further detailed information about the organisation and problem statement but unlike our expectations they didn't give any suggestions/challenges for improvement in the system.

In-between the next round of evaluation We worked on the User-Interface of the system, improved the robustness of the database, explored the algorithm to implement location based tracking.

First round of Evaluation

Judges visited for the first round of evaluation at around 7PM, We presented the details about the working of the system along with demo. Right from the log-in of the Manufacturer, auto-generation of Unique-Id, QR code generation, Customer scanning QR code till Authentication response from the system. After analysing the solution they asked in detail about the tracking part of the system the use of RFID and its impact on feasibility of the solution. Also they asked to study about the existing solutions in the market and compare them with our solution on the basis of cost-effectiveness, innovation, reliability, user friendly and so on. In due course we attended the live interaction by Prime Minister followed by the recreational activities and energy drink.

Meanwhile We came to know that, Our competitors were having same solution approach as Ours. So, it became essential for Us to innovate in a way, to get differentiated from others. Our location-Based tracking had the ability to take systems reliability to next level, so We diligently worked the whole night and completed it by morning. Along with this We created dynamic User-Interface added data analytics, which showed all the information as per the requirement like categorization of entities as per location, product names, product category. This gave manufacturer an extra edge to identify the counterfeit problem intensity over particular Products or Geographic location. It also helped in predicting the future market trend and opportunities.

Second round of Evaluation

For the second round of evaluation judges arrived at around 10 AM. We again presented the full demonstration of the system this time the Juries asked like what if the QR code is distorted, how to protect the Unique-Id if the database is hacked for the same they asked to encrypt the Unique-Id, One more suggestion was to make the system multilingual. The presentation went as expected and We felt like We stand a chance.

We started working on the suggestions and completed all except encryption within an hour. We later were able to encrypt the UIs but unable to decrypt it and then we rechecked Our system and prepared for the Final presentation.

Last round of Evaluation

Judges arrived at around 6 PM. Our whole system was same apart from the suggestion. So, We presented the improvement first and then the whole system, Jury checked it and asked about each Members contribution, future work on the system, its implementation in real world if selected as winner.

First and Second Runner Up position in Hackathon organized by Adani Electricity:

Two teams of students from SSGMCE, Shegaon, participated in the Hackathon on the Smart Key for Meter Cabins organized by Adani Electricity. The objective was to encourage innovative solutions for key management issues in securing meter cabins. The teams provided satisfactory solutions to the problem statement issued by Adani Electricity (Problem Statement: Currently, physical keys are used to lock Meter Cabins. Therefore, key management is a major concern as there is no alarm system present to detect unauthorized access to meter cabins). Our teams were awarded the second prize (First Runner Up) of Rs. One lakh and the third prize (Third Runner Up) of fifty thousand, along with recognition certificates. The first runner-up team members include Viplav Khode, Chinmay Deshkar, Pranjali Amalkar, and Pranoti Gaigol. The second runner-up team members include Aniruddha Wankhade, Vivek Joge, Shwetatai

Shri Sant Gajanan Maharaj College of Engineering, Shegaon, in collaboration with the Institution Innovation Council, proudly hosted the "Intra-Institutional Project Hackathon 2023." This dynamic event not only encouraged creativity and collaboration but also provided students with a unique opportunity for participative learning. By actively engaging in this hackathon, students had the chance to apply their theoretical knowledge to real-world projects, enhancing their problem-solving skills and gaining practical insights. The hackathon served as a platform for students to actively participate, contribute ideas, and collectively work towards innovative solutions, fostering a culture of hands-on learning and collaboration within the institution.

Event Coordinator Faculty Name / Department / Designation	Prof. N B Borkar Asst prof. Mechanical Engineering ,SSGMCE Shegaon.
Target Participants	All Students & faculties of SSGMCE shegaon
<ul style="list-style-type: none"> ➤ Objective ➤ Benefit in term of learning/skill/knowledge obtained (benefit in term field is required) 	<p>Objective:</p> <ul style="list-style-type: none"> • To make student competent for problem solving . • To make students inspired by problem solving activities. • To create a culture competitive towards the problems in society. <p>Benefits:</p> <ul style="list-style-type: none"> • Students and faculty member may get basics of problem solving. • Apply the creativity with modern tools and technology. • It may determine new dimensions of problem solving.

Overview of the program:

Shri sant gajanan maharaj College of Engineering, Shegaon, in association with Institution Innovation Council has organized “Intra Institutional Project Hackathon 2023” coordinated by Prof. N B Borkar. The event was enlightened by one of the eminent resource person Dr.Milind Pande, Pro-Vice Chancellor- MIT World Peace University, Pune. The program was started on 14 Jan 2023 at 10.30 AM with a warm welcome escorted by project competition coordinator Prof Nitin B Borkar and evaluators of the event. The program was organize to address real time problems in various field of science and technology. Students participated to solve the real life problems of society.

At last of program, Dr. Milind Pande has listen all the participants and share his views about projects and products under commercialization. Finally Dr. Milind Pande has narrated all the suggestions and opportunities for real time solution.

Quiz:

Quizzes require active participation from students, engaging them in answering questions and fostering a more immersive learning experience. Participants apply their theoretical knowledge to answer questions, promoting the practical application of concepts learned in the classroom to real-world scenarios.

SSGMCE actively engages students in a variety of quizzes, with a special emphasis on business quizzes, aiming to foster participative learning. These interactive sessions not only encourage students to actively participate but also provide a dynamic platform for the practical application of theoretical concepts. Through quizzes, students enhance their critical thinking, decision-making, and problem-solving skills, preparing them for real-world challenges in the business arena. The diverse formats and engaging questions make these quizzes enjoyable and contribute to a vibrant learning environment at institute.

Department of Business Administration and Research Shri Sant Gajanan Maharaj College of Engineering, Shegaon

Parishkriti 2023 A Report on Business quiz held on 07-04-2023

Introduction

Business quizzes are an effective way to test the knowledge of individuals on various business-related topics such as finance, marketing, management, economics, and strategy. These quizzes are conducted in various settings, including schools, colleges, corporate events, and conferences. The objective of a business quiz is to help participants learn and retain important business-related information and develop a competitive spirit. This report aims to discuss the objectives of a business quiz, its outcomes, and its importance in today's business world.

Objectives of a Business Quiz

The primary objective of a business quiz is to provide participants with a platform to test their knowledge of business concepts, theories, and practices. The quiz aims to evaluate participants' understanding of the fundamental principles of various business fields and their ability to apply them in real-world scenarios. Some of the key objectives of a business quiz include:

1. **Promoting Learning:** A business quiz helps to promote learning among participants by providing them with an opportunity to test their knowledge of business concepts and theories. Participants can use this opportunity to gain a deeper understanding of various business topics and expand their knowledge base.

2. **Encouraging Competition:** A business quiz fosters a competitive spirit among participants, encouraging them to push themselves to perform better than their peers. This competitive spirit can help participants develop critical thinking skills and improve their problem-solving abilities.

3. **Developing Confidence:** By participating in a business quiz, participants can develop confidence in

their knowledge and abilities. This newfound confidence can help them in their personal and professional lives, empowering them to take on new challenges and achieve their goals.

4. **Networking:** A business quiz provides participants with an opportunity to network with like-minded individuals, which can help them build relationships that may prove useful in their careers.

Event details

This Business quiz was held under the head of Parishkriti 2023 a National Level Management event organized by the Department of Business Management and Research under the institute of SSGMCE. In this event, various participants from various places participated. The total participation for this event was 21 teams and 63 participants. For the final round, only 5 teams were selected on the basis of the General Awareness Quiz. In that quiz, the total number of questions was 50 and the highest score teams were eligible for the final quiz. The final quiz consists of 3 rounds i) General Awareness ii) Punchline identification and iii) Logo Identification. After the completion of these rounds, we found one winning team i) Rohit Shekokar ii) Amit Bhange iii) Girish Sathe, and one runner-up team i) Pooja Awatirak ii) Vaishnavi Khandare iii) Vaishnavi Sahu. Both the teams received a cash prize of Rs. 1000 for the winning team and Rs. 500 for a runner-up team with certificates. All the other participants will be provided participation certificates.

Outcomes of a Business Quiz

The outcomes of a business quiz can vary depending on the nature and scope of the quiz. Some of the most common outcomes of a business quiz include:

- 1. Increased Knowledge:** Participants can gain a better understanding of various business concepts, theories, and practices through their participation in a business quiz. This increased knowledge can help them in their personal and professional lives, enabling them to make more informed decisions and solve problems more effectively.
- 2. Improved Critical Thinking Skills:** Business quizzes often require participants to think critically about various business scenarios and problems. This process can help participants develop their critical thinking skills, enabling them to analyze complex information and make sound decisions.
- 3. Enhanced Problem-Solving Abilities:** Business quizzes can help participants improve their problem-solving abilities by providing them with an opportunity to apply their knowledge of business concepts and theories to real-world scenarios.
- 4. Improved Confidence:** By participating in a business quiz, participants can gain confidence in their abilities and knowledge. This newfound confidence can help them in their personal and professional lives, empowering them to take on new challenges and achieve their goals.
- 5. Networking Opportunities:** A business quiz provides participants with an opportunity to network with like-minded individuals, which can help them build relationships that may prove useful in their careers.

Conclusion

Business quizzes are becoming increasingly important in today's business world, as they provide a platform for individuals to test their knowledge of business concepts, theories, and practices. In today's fast-paced and competitive business environment, staying up-to-date with the latest trends and practices is crucial to success. Business quizzes can help individuals stay informed about the latest developments in their fields and gain a competitive edge. Business quizzes can also be used as a tool for training and development. Organizations can use quizzes to assess employees' knowledge of various business concepts and identify areas where additional training may be required. This can help organizations improve their employees' skills and knowledge, leading to increased productivity and profitability.

Seminars:

Seminars conducted by students can effectively serve as a form of participative learning, offering several benefits. Students actively apply their theoretical knowledge by researching, preparing, and presenting seminar topics. This hands-on approach reinforces classroom learning.

At SSGMCE, the final-year curriculum includes a dedicated seminar on a technical topic. Additionally, as a component of internal assessment, students are given the flexibility to choose and present seminars on various technical subjects. This dual approach ensures a comprehensive understanding of the selected topics, empowering students to actively engage in the learning process and showcase their research and presentation skills

Paper Publication:

Publications on research topics by students stand as a testament to the vibrant participative learning culture at SSGMCE. Actively immersing themselves in the research process, students navigate the complexities of their chosen subjects, applying theoretical knowledge to solve real-world challenges. The publication journey involves meticulous investigation, critical analysis, and collaborative efforts, fostering an intellectually stimulating learning environment. Beyond enhancing their research and writing skills, this process instils a sense of responsibility, motivating students to contribute valuable insights to their respective fields. Noteworthy is SSGMCE's emphasis on motivating students to publish their final-year projects, resulting in a remarkable and growing portfolio of student-authored publications.

Self Learning:

Self-learning serves as a dynamic form of participative learning at SSGMCE, empowering students to take control of their educational journey. Through self-directed exploration, students actively engage with course materials, delve into supplementary resources, and seek out practical applications of theoretical concepts. This approach fosters a sense of responsibility, independence, and critical thinking as students navigate the intricacies of their subjects. At SSGMCE, students are motivated and encouraged to go beyond the classroom, exploring diverse perspectives and taking ownership of their intellectual growth

SSGMCE students participate in NPTEL Swayam, immersing themselves in a diverse range of MOOCs courses to broaden their knowledge and skills.

Problem-Solving Methodology

Problem-solving methodology stands as a cornerstone of student-centric learning at SSGMCE. By focusing on real-world challenges, students actively engage in critical thinking, analytical reasoning, and collaborative problem-solving. This approach empowers them to apply theoretical knowledge to practical scenarios, fostering a deeper understanding of the subject matter. Various components of this technique practiced at SSGMCE include the following

Project-Based Learning (PBL)

Project-Based Learning (PBL) at SSGMCE serves as an effective problem-solving methodology, providing students with a dynamic and hands-on approach to education. Through PBL, students tackle real-world problems, fostering critical thinking, collaboration, and practical application of theoretical knowledge. The methodology encourages students to explore solutions independently, enhancing their problem-solving skills and preparing them for the complexities of their future careers. At SSGMCE, PBL is integrated into various disciplines, allowing students to engage with challenging projects that mirror industry scenarios.

Students of SSGMCE fabricated self-propelled onion Harvester for TIFAN 2018 and were selected for 2019 competition.

SAEINDIA is off highway US based global association. Which is organising TIFAN for the first time. We know that INDIA is an agriculture country but only 10% of farming is done by mechanized tools. In order to overcome this problem, SAEINDIA had taken initiative and launch **TIFAN** i.e. *Technological Innovation Forum for Agricultural Nurturing*.

- Its purpose is to solve agricultural problem using mechanised solution.
- Successfully completed Virtual Round of TIFAN 19-20
- This time also main event is organised at MPKV, Rahuri, Ahmednagar.
- Modification need to make in **self-propelled onion harvester** for this competition.
- Companies like **BKT Tyres, ARAI, John Deere, AGROWON, Eaton, CAT, Ansys, Cummins** etc. will be sponsoring TIFAN competition .
- We will get opportunity once again for representing our college at national level.

Theme of the Project: Self-Propelled Onion Harvester

Self-Propelled onion harvester is not yet developed in INDIA. As it's being Second Largest country cultivating onion its productivity is comparatively low to the other countries. It is due to the less developed techniques in onion harvesting which we are trying to overcome by developing onion harvester.

- TIFAN is going to provide innovative solution towards product design and development challenge.
- This onion harvester will perform main function of Digging , collecting , cleaning and storage.
- It has great material handling capacity of about 100 kg which can reduce farmer efforts to great extent.
- It will help to reduce time, money and labour.
- Thus it will provide a solution for increasing productivity.
- It can have good market value being affordable and usable for farmers.
- New design and modification are required for this competition

Advantages of self propelled Onion Harvester :

- High productivity, Less time consumption, Reduces labour work, Less Damage to crops, Increases crop life and high efficiency.

Proposed Model of Onion Harvester

- The working Principle of this proposed Onion harvester is based on loosening the soil around the bulb ,pick and transfer the onion bulb , separate the soil from onion and finally to stock onion in storage bin.
- Soil and crop are transferred into a series of webs where, the loose soil is sieved out.
- Considering the above sequence of Operations the onions will be harvested using Kirloskar Diesel Engine as a prime mover.

BAJA 2020 Report

(SAEINDIA Student Chapter, Mech. Engg. Dept. SSGMCE, Shegaon)

Chitkara University, Punjab had successfully hosted the 13th edition of the prestigious Mahindra BAJASAE INDIA 2020 on 5th march 2020 to 8th march 2020. Chitkara University hosted this event in association with SAEINDIA and Mahindra & Mahindra Ltd. Professor Dileep Malkhede, Advisor, AICTE and Professor Dr. Sagar Maji, Director DITE (Delhi Institute of Tool Engineering) were the Chief Guest and Guest of Honor respectively.

We were 24 members, along with our Faculty Advisor Prof. M.B.Bhambere, additional faculty Prof. S. Q .Syed and Mr. Ramdas Pachade with Captain Mr. Jayesh Tale and our vice-captain and Driver Mr. Pranav Chandurkar. In our team, 7 from final year members, 5 from 3rd year and 12 from 2nd year. The goal of the event was, each team has to design and build a prototype of a rugged single seat four wheel ATV (All Terrain Vehicle) that has to go through multiple tests and then compete in endurance race.

Total 82 teams got selected for m BAJA 2020 at Chitkara University, Punjab. However with challenging tests, **only 34** teams were able to make it for the Endurance Race and we were one of them.

The four-day event started with a basic Static Evaluation round that comprises design evaluation, cost evaluation and marketing presentation. In the final round, the teams had to showcase their prototype of a single-seat, off-road, four-wheel vehicle and were evaluated on various parameters like engineering design, CAE, Cost and Innovation. Our team overall score were, In sales Event we got 24.5 out of 50, In cost event we got 84.5 out of 100, In design event we got 103.3 out of 150.

After this, the Dynamic Evaluation Round started, which was all about testing the vehicles for acceleration, sledge pull, maneuverability along with Suspension & Traction In acceleration event we got 66.5 out of 75 and we got 15.6 in Sledge pull event. Then on 8th march the four-hour endurance race was flagged off by Professor Dileep Malkhede, Professor Sagar Maji along with other dignitaries. A 2 km long race track consisting of muddy pits, cliffs and slopes of 15-20 feet of height and the continuous rains that happened for almost 2 days before the event, made the competition even more difficult. Our SSGMCEan team were hustling with that dedication and hard work clearly payoff. And Because of that we got **3rd Rank in Endurance Race**. Our Atv completed 12 laps in 4 hours and scored 282.4/ in Endurance Race (out of 400) full of mud pools with no breakdown. And our overall score is 576.7 out of 925. (first Rank was at 777.1/925) And this is how it done with tons of Hearts Break and massive learning lessons. And eventually all teams won because at the end of the day it's all about learning. Even in unkind weather conditions, LOGAN still Fly High.

FACULTY ADVISOR

SSGMCE takes pride in offering aptitude training courses for students through a strategic MoU with Base Education Jalgaon. These courses are meticulously designed to instill problem-solving skills, empowering students with a valuable asset for academic and professional success.

MEMORANDUM OF UNDERSTANDING

(MoU)

BETWEEN

BASE Education, Jalgaon

&

Shri Sant Gajanan Maharaj College of Engineering,

Shegaon

**Student Development Programs for Placement
Enhancement through Aptitude Preparatory
Training.**

MEMORANDUM OF UNDERSTANDING

This **Memorandum of Understanding** (herein after called the 'MOU') is entered into on this the 23th day of May month 2022(Date **23-05-2022**), by

and between **BASE Education,**

**Address: “Nandvilas”, Near Chemist Bhavan, Ganesh Nagar,
Jalgaon-425001 (M.S.)**

(Herein after referred to as ‘ **First Party**’)

And

Shri Sant Gajanan Maharaj College of Engineering, Shegaon

**Address: Opposite Abhay Cranes Pvt.Ltd., Shegaon-Khamgaon Road,
Shegaon, Dist-Buldana-444203 (M.S.)**

(herein after referred to as “**Second Party**”,

(First Party and Second Party are hereinafter jointly referred to as ‘Parties’
and individually as ‘Party’)

WHEREAS:

1. First Party is an Education company: BASE Education, Jalgaon
2. First Party & Second Party believe that collaboration and cooperation will promote more effective use of each of their resources and provide them with enhanced opportunities.
3. The Parties intend to cooperate and focus their efforts on cooperation within the area of Aptitude Skill Based Training.
4. Both Parties, being legal entities in themselves desire to sign this MOU for advancing their mutual interests.

**NOW, THEREFORE, IN CONSIDERATION OF THE MUTUAL
PROMISES SET FORTH IN THIS MOU, THE PARTIES HERETO
AGREE AS FOLLOWS:**

CLAUSE 1: CO-OPERATION

5. Both Parties are united by common interests and objectives, and they shall establish channels of communication and cooperation that will promote and advance their respective operations within the Institution and its related wings.
6. First Party and Second Party cooperation will facilitate effective utilization of the intellectual capabilities of the faculty of First Party providing significant inputs to the second party in developing Aptitude training systems, keeping in mind the needs of the student's placement in industry.
7. The general terms of cooperation shall be governed by this MOU. The Parties shall cooperate with each other and shall, as promptly as is reasonably practical, enter into all relevant agreements, deeds, and documents (the 'Definitive Documents') as may be required to give effect to the actions contemplated in terms of this MOU. The term of Definitive Documents shall be mutually decided between the Parties. Along with the Definitive Documents, this MOU shall represent the entire understanding of the subject matter hereof and shall supersede any prior understanding between the Parties.
8. BASE Education would be the training delivery partner for the second party on various trending aptitude trainings and the tests.
9. BASE Education would be a training delivery partners for engineering students of Second party various trending aptitude trainings and the tests for minimum of 11 months in one academic year (Usually Commence from July to May).
10. Aptitude Preparatory Classes will be in hybrid mode format (Online + Off-line) as per need and availability.
11. Cooperation between both parties would be extended to placement assistance which may be mutually beneficial to both the organizations.

CLAUSE 2: SCOPE OF THE MoU

12. The budding graduates from the institutions could play a key role in technological up-gradation, innovation, and competitiveness of an industry. Both parties believe that close co-operation between the two would greatly benefit the student community and enhance their skills and knowledge.
13. Curriculum Design: First Party will give valuable inputs to the Second Party in aptitude training methodology and suitably customize the curriculum so that the students fit into the industrial scenario meaningfully.
14. The content of training module will be designed as per the students level of understanding and with increasing difficulty as per the successive semesters.
15. The content of training module will be of minimum 50 hours per semester. Revision of content and teaching methodology will be done from the inputs from both the parties.
16. Both Parties are to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature required for offering the Programs on the terms specified herein
17. First party would extend the help in providing artifacts such as training records, and certificates to the second party upon a written request from the second party. This information is limited to only the students of the second party and at the discretion of the first party.
18. In case, the second party wants to conduct customized commercial training then this agreement can be amended/adding an annexure with mutually agreed terms.

CLAUSE 3: INTELLECTUAL PROPERTY

19. Both the parties will have the sole rights to the curriculum and related content provided in the training.
20. Confidentiality: Except as may otherwise be required by law, each party will hold confidential, during and after the term of this Agreement, any confidential information disclosed to it or its representatives, and will not disclose any such confidential information to any third party.

CLAUSE 4: VALIDITY

21. The period agreement is valid from the date of signing of this agreement to **31st May 2023.**

22.This agreement will be valid only at the intentions of the parties involved therein, this MOU could be dissolved or canceled by either party at any time by giving 30 days' notice and shall not have any legal bindings in nature. should either or all the parties to it opt to not act upon it, the MOU loses its validity.

CLAUSE 5: RELATIONSHIP BETWEEN THE PARTIES

23.It is expressly agreed that First Party and Second Party are acting under this MOU as independent contractors, and the relationship established under this MOU shall not be construed as a partnership. Neither Party is authorized to use the other Party's name to make any representations or create any obligation or liability, expressed or implied, on behalf of the other Party, without the prior written consent of the other Party. Neither Party shall have, nor represent itself as having, any authority under the terms of this MOU to make agreements of any kind in the name of or binding upon the other Party, to pledge the other Party's credit, or to extend credit on behalf of the other Party.

AGREED:

“Campus Recruitment Training for BE 2nd year Students ”

Academic Year 2022-23

Shri Sant Gajanan Maharaj College of Engineering,
Khamgaon Road, Shegaon, Dist: Buldhana

Sr No	Title of Activity	Campus Recruitment Training for BE 2nd year Students
1	Speaker	Mr. Ajay Butwani
2	Co-Ordinator	Prof Adesh Solanke
3	Co-Cordinator	Prof. Mrs. H S Patil
4	Schedule of Activity	Started from 1st Dec 2022 at 7:00 PM to 08:00 PM Total 100 Hrs per year
5	Time	As per scheduled in Time table and notice
6	Objective of Activity	<ol style="list-style-type: none"> 1.Enrich their knowledge and to develop their logical reasoning thinking ability 2.The main aim of introducing “Quantitative Aptitude”for mathematics students is to develop skill to meet the competitive examinations for better job opportunity. 3.Effort has been made to accommodate fundamental, mathematical aspects to instill confidence among students. 4.To demonstrate various principles involved in solving mathematical problems and thereby reducing the time taken for performing job functions. 5.To make students able to critically evaluate various real-life situations
7	Venue	Virtual Mode
8	No. of Beneficiaries	Total- 450
9	Syllabus/Topics	Attached herewith

About Program:

In general, aptitude tests measure one's competence in logical reasoning, numerical skills, or verbal ability; competency can be evaluated through problem-solving tasks and testing one's critical thinking across various contexts.

There are various topics under the syllabus of Quantitative Aptitude. Topics such as work and wages, permutation and combination, profit and loss, age, probability, percentages, ratios and many more. The above article contains all these important topics.

Aptitude tests are often used to assess academic potential or career suitability and may be used to assess either mental or physical talent in a variety of domains.

Topics Covered:

Square roots, Cube roots, Squares, Ratio Proportion, Allegation's & Mixtures, Number Series & Letter Series, Coding-Decoding, Calendars, Clocks, Partnerships, Basic Geometry & Algebra, Questions on Ages, Pattern Completion, Mirror Image & Water Image, Data Sufficiency etc.

Learning Outcomes:

After successful completion of this course, students will have the knowledge and skills to

1. Solve the problems easily by using Short-cut method with time management which will be helpful to them to clear the competitive exams for better job opportunity.
2. It helps Candidates to conquer the success in job tests.
3. Analyze the Problems logically and approach the problems in a different manner.

Course Contents:

Following is the Quantitative Aptitude & Logical Reasoning training plan for Second year Engineering Students (**Semester- III.**)

Second year Engineering (Semester- III) (50hrs)		
No.	Chapter Name	Hours
1.	Square roots, Cube roots, Squares	2hrs
2.	Ratio Proportion	6hrs
3.	Partnerships	4hrs
4.	Averages	6hrs
5.	Allegation's & Mixtures	6hrs
6.	Questions on Ages	6hrs
7.	Analogies or similarities	4hrs
8.	Number Series & Letter Series	4hrs
9.	Coding-Decoding	4hrs
10.	Calendars	4hrs
11.	Clocks	4hrs
	Total Working hours per batch	50hrs

Following is the Quantitative Aptitude & Logical Reasoning actual training plan implemented for Third Year Engineering Students (**Semester-VI.**)

Third year Engineering (Semester- VI) (50hrs)		
N O	Chapter Name	Hours
1.	Number System	6hrs
2.	Basic Statistics	6hrs
3.	Progression	6hrs
4.	Basic Geometry & Algebra	6hrs
5.	Surds & Indices	6hrs
6.	Data Interpretation	4hrs
7.	Data Sufficiency	4hrs
8.	Nonverbal Reasoning (Series & Analogy)	4hrs
9.	Pattern Completion, Mirror Image & Water Image	4hrs
10.	Paper Cutting & Folding	4hrs
	Total Working hours per batch	50hrs

Dear Students,

Greetings from T&P Cell of SSGMCE Shegaon!!!

Aptitude test is the first part of the recruitment process of almost all companies. To solve the lengthy/complex questions of the aptitude tests, students need to know the tricks/shortcuts and also need to practice well in advance. Keeping all these points in view, we have designed a systematic plan of **200 Hours of Aptitude Development Program** for the students of SSGMCE Shegaon.... We are starting these classes **from 1st December 2022**. For the convenience of the students the classes will be conducted online on MS Teams platform (tentative timing will be as follows: **For BE Second Year::: (eigher from 8:00am to 9:00am OR from 7:00pm to 8:00pm)**.)

We have assigned the aptitude training to a highly expert and 10+ years experienced trainer **Mr. Ajay Butwani** to train the students on Aptitude Development. He has trained more than 51000 students so far. These aptitude classes would bear a nominal charge of Rs.1000/- (for all the four semesters, 3rd, 4th,5th and 6th: out of the Rs.1000/- during Second year you need to pay only Rs 600/- and the remaining Rs.400/- will have to pay in your Third Year). The Aptitude Development Programme is mandatory for all the students of BE Second Year students. The Aptitude classes attendance of every SSGMCE student should be 75% and above: it is a basic eligibility condition for all SSGMCE Students to make themselves "Placement Eligible". During your BE Final year there will be a crash course which will be a rapid revision of the entire aptitude syllabus and that would be free of charge. The topic details are mentioned in the word/pdf files attached to this message.(So, pay Rs.600/- for the Aptitude Classes scheduled for BE Second Year students session 2022-23.)

We appeal to all the students to attend the Aptitude Development Classes regularly. You will really enjoy the learning!

Wish You All The Best!!!

Help Us to Help You!!!

Innovation and Incubation Centre (IIC) Activities:

The Innovation and Incubation Centre (IIC) at SSGMCE plays a pivotal role in cultivating problem-solving learning skills among students. Through various activities, the IIC provides a platform for students to engage in real-world problem-solving scenarios. This includes ideation sessions, hackathons, and innovation challenges that encourage students to apply their theoretical knowledge to practical challenges.

The IIC fosters a culture of creativity and critical thinking, pushing students to explore innovative solutions to complex problems. Additionally, the incubation aspect allows students to develop and refine their ideas, turning them into viable solutions or entrepreneurial ventures. Overall, the IIC serves as a dynamic hub that not only stimulates problem-solving skills but also nurtures a spirit of innovation and entrepreneurship among the student community at SSGMCE.

Idea Generation Programme through Creative Jugad

SSGMCE IEI Student Chapter organized a program Idea Generation Program through Creative Jugad, to make students aware about the new idea generation for new product design.

About Program:

An Idea Generation Program through Creative Jugad was one of the event conducted by the student chapter for creating an innovative ideas for new products and design as first step for the entrepreneur skill

Learning Outcomes:

1. Students are made aware to create the new ideas about the new product.
2. Students are enabled to present the ideas and defend the same.

Sant Gadge Baba Sant Gadge Baba Amravati University's National Project Competition:

Gajanan Maharaj College of Engineering achieved notable success at the startup fest organized by Sant Gadge Baba Amravati University. The annual National Startup Fest, held on March 25th and 26th 2019, featured a project competition with this year's theme focusing on Student Innovation, Startups, and Ecosystems. The objective of this competition was to facilitate the exchange of information among scientists, experts, researchers, and students, fostering an understanding of current technological changes.

Participating in the event, students from the college presented their projects, earning accolades. Gaurav Burewar and Hardik Sanganeria, final-year students of the Electronics and Telecommunication Department, secured the second prize, while Yash Shrivastava and Chaitanya Jain received the third prize. Additionally, the second-year Information Technology students, Shailesh Khote, Sagar Bhojkar, and Saurabh Burade, also clinched the third prize. Another group of final-year Mechanical Engineering students, Vaibhav Nakat, Sagar Gawle, and Nikita Bhagat, joined the winners' circle with a third prize. The prizes were presented to the accomplished students by Dr. Muralidhar Chandekar, the Vice Chancellor of Sant Gadge Baba Amravati University.

वार्षिक राष्ट्रीय प्रकल्प स्पर्धा में छात्रों की सफलता

शहर संवाददाता | शेगांव

श्री संत गजानन महाराज अभियांत्रिकी महाविद्यालय के छात्रों ने संत गाडगे बाबा अमरावती विद्यापीठ द्वारा आयोजित स्टार्ट अप फेस्ट में सफलता प्राप्त की है। विद्यापीठ द्वारा प्रति वर्ष एन्युअल नेशनल स्टार्ट अप फेस्ट अंतर्गत प्रकल्प स्पर्धा आयोजित की जाती है। २५ तथा २६ मार्च को यह स्पर्धा विद्यापीठ में आयोजित की गई थी। इस साल का विषय स्टूडेंट इनोवेशन, स्टार्ट अप्स तथा इको सिस्टम था। जिसमें विद्यापीठ को संलग्नित महाविद्यालय के छात्र शामिल होकर प्रकल्प प्रस्तुतीकरण करते हैं। इस स्पर्धा का उद्देश्य शास्त्रज्ञ, तज्ञ, संशोधक तथा छात्रों को एक साथ लाकर उनके साथ जानकारियों का आदान प्रदान करना एवं तंत्रज्ञान में हो रहे बदलाव की शिक्षा देना है। महाविद्यालय के छात्रों ने इसमें शामिल होकर प्रकल्प प्रस्तुत किए। जिसमें से परमाणु एवं दूरसंचार विभाग के अंतिम साल के छात्र गौरव बुरेवार एवं हार्दिक संगनेरिया को द्वितीय पुरस्कार, यश श्रीवास्तव एवं चैतन्य जैन को तृतीय पुरस्कार

मिला। सूचना तंत्रज्ञान विभाग के द्वितीय साल के छात्र शैलेश खोटे, सागर भोयकर, सौरभ बुराडे के ग्रुप को तृतीय पुरस्कार तथा यांत्रिकी अभियांत्रिकी के अंतिम साल के छात्र वैभव नकट, सागर गवले, निकिता भगत के ग्रुप को तृतीय पुरस्कार मिला। संत गाडगे बाबा अमरावती विद्यापीठ के कुलगुरु डा. मुरलीधर चांदेकर के हाथों छात्रों को पुरस्कार प्रदान किए गए। महाविद्यालय के संचालक श्रीकांतदादा पाटिल, प्राचार्य डा. एस. बी. सोमानी, परमाणु एवं दूरसंचार विभाग के प्रमुख डा. जी. एस. गावंडे, सूचना तंत्रज्ञान विभाग के प्रमुख प्रा. अमित मानेकर, यांत्रिकी अभियांत्रिकी विभाग के प्रमुख डा. एस. पी. त्रिकाल, शिक्षक - शिक्षकेतर कर्मचारियों ने सफल छात्रों का अभिनंदन किया।

Code Ninja Hunt 2020 Victory: SSGMCE Students Bag One Lakh Prize

Final year Computer Science and Engineering students at Shri Sant Gajanan Maharaj College of Engineering in Shegaon secured the first prize in the National Level Competition "Code Ninja Hunt 2020," organized by Nitor Infotech Pvt. Ltd. in Pune.

The competition drew participation from approximately thirteen hundred students, forming around five hundred teams from various colleges nationwide, including 150 team entries from prestigious institutions such as IITs and NITs. A team comprised of final year Computer Science and Engineering students, including Sachin Nair, Sahil Mune, and Rajat Ninawe, actively participated in the competition. They presented an outstanding solution to the given problem statement, which required creating a game with numerous constraints using any technology or software, as long as specific conditions were met. The process posed several challenges, yet the SSGMCE students excelled by developing a solution that surpassed the organizers' expectations, all within a timeframe of less than 12 hours.

शेगांव के छात्रों ने जीता एक लाख का पुरस्कार

शहर संवाददाता | शेगांव

यहां के श्री संत गजानन महाराज अभियांत्रिकी महाविद्यालय के छात्रों ने 'कोड निन्जा हंट' इस राष्ट्रीय स्पर्धा में प्रथम स्थान प्राप्त कर एक लाख रूप्यका का पुरस्कार जीता। निटोर इन्फोटेक प्रा. लि. कंपनी द्वारा यह स्पर्धा अंतिम साल के छात्रों के लिए पुणा में आयोजित की गई थी। देश की आईआईटी उसी तरह विविध अभियांत्रिकी महाविद्यालय के अंतिम साल की 500 टीमों को मिलाकर लगभग 1300 छात्र इस स्पर्धा में शामिल थे। इन छात्रों को प्रोब्लेम स्टेटमेंट दिया गया था। प्रोब्लेम स्टेटमेंट को उत्कृष्ट तीन टीम को अंतिम फेरी में सोल्युशन देने का मौका दिया गया था। जिसमें श्री संत गजानन महाराज अभियांत्रिकी महाविद्यालय के संगणक अभियांत्रिकी शाखा के अंतिम साल के सचिन नायर, साहिल मुने, रजत निनावे, इन

छात्रों ने उत्कृष्ट सोल्युशन पेश किए। अंतिम फेरी में प्रस्तुतीकरण करने के लिए उन्हें सिर्फ सात – आठ घण्टे का समय मिला, इतने समय में उन्होंने दिए टार्गेट को पूर्ण किया। कंपनी द्वारा उन्हें एक लाख का पुरस्कार, प्रमाण पत्र देकर सन्मानित किया गया। महाविद्यालय के लिए यह अभिमान की बात है। महाविद्यालय के छात्रों ने लगातार विविध स्पर्धा में भाग लेकर अपनी अलग पहचान निर्माण करते रहे हैं। महाविद्यालय द्वारा उन्हें स्पर्धा में शामिल होने के लिए प्रोत्साहित किया जाता है। उन्हें स्पर्धा में टिकने हेतु कौशल्य आत्मसात करने के सिवाए अन्य पर्याय नहीं, ऐसा ध्यान में रखना चाहिए। महाविद्यालय के संचालक श्रीकांतदादा पाटिल, प्रा. डा. एम बी सोमानी, संगणक अभियांत्रिकी विभाग के प्रमुख डा. डी आर धोत्रे, शिक्षक एवं शिक्षकेतर कर्मचारियों ने सभी सफल छात्रों का अभिनंदन किये हैं। भावेश 9561000010

"fromto" APP Development for State-Transport

Three third-year engineering students at SSGMCE, Shegaon, have developed an Android mobile application named "FromTo" for Buldhana District State Transport. The students behind this innovative app are Mandeepsingh Bagga (EXTC), Akshaykumar Bhopale (CSE), and Chetan Marode (CSE). The application serves as a comprehensive solution for passengers choosing to travel by S.T. Bus. It provides users with accurate schedules of state transport buses, details on fares, routes, and estimated travel times. The app is accessible for buses across all depots in Buldhana district and is available in English, Marathi, Hindi, and Hinglish. This initiative showcased the students' dedication to addressing real-world needs through technology.

SHRI GAJANAN SHIKSHAN SANSTHA'S

अभियांत्रिकी महाविद्यालय के छात्रों ने किया बुलढाणा जिले के लिए एसटी राज्य परिवहन एप का निर्माण

शहर संवाददाता | शेगांव

श्री संत गजानन महाराज अभियांत्रिकी महाविद्यालय, शेगांव के तृतीय साल में इलेक्ट्रॉनिक्स एंड टेलिकम्यूनिकेशन एवं कम्प्यूटर शाखा के छात्र मंदीपसिंह बग्गा, अक्षयकुमार भोपले एवं चेतन मारोडे ने इलेक्ट्रॉनिक विभाग के प्रमुख डा. गोपाल गावंडे के मार्गदर्शन में बुलढाणा जिले के नागरिकों के लिए सुविधायुक्त एवं सादी भाषा में एसटी महामंडल बस के समय पत्रक होने वाले एप की निर्मिति किए हैं। इस एप से गांव के सर्वसामान्य यात्रियों को राज्य परिवहन बसों के उचित समय सारिणी की जानकारी घर बैठे जानकार

मिलेगी। एवं सफर में लगने वाला समय घर बैठे यात्रियों को मोबाइल एप के माध्यम से देख सकेंगे। टिकट किराए, यह आसान एप अंग्रेजी, मराठी, हिंदी एवं परिवहन मार्ग इंग्लिश भाषा में उपलब्ध है।

भावेक 9561000010

हजार से अधिक लोगों ने किया डाउनलोड • आज तक एक हजार से अधिक लोगों ने यह एप डाउनलोड किया है। बुलढाणा जिले में सभी डिपो की बस के लिए उपलब्ध करके दिया है। आने वाले कुछ दिनों में राज्य परिवहन मंडल की मदद से पूरे महाराष्ट्र में राज्य के लिए एप का विस्तार करने का इन छात्रों की इच्छा है। श्री गजानन महाराज संस्थान के श्रीद वाक्य 'सर्वे भवन्तु सुखिन' अनुसार शासन के विविध प्रकल्पों को संचार क्रान्ति से जोड़ने की तैयारी छात्रों की है। इसमें एसटी कर्मचारी सागर शेगोकार यात्रायात नियंत्रक, राज येवले, सचिव पिंगले(लिपिक), मोहन रहाटे वाहक एवं बुलढाणा विभाग के सभी कर्मचारियों का सहयोग मिला। छात्रों को शुभेच्छा देते महाविद्यालय के संचालक श्रीकांतदादा पाटिल ने कहा कि, 1986 से चल रहे इस महाविद्यालय से उत्तीर्ण हुए सैकड़ों छात्र, भारत में ही नहीं, पूरी दुनिया के बहुराष्ट्रीय कंपनी के माध्यम से कई देशों में अपनी सेवा दे रहे हैं। इस एप का लोकार्पण एसटी महामंडल विभाग नियंत्रक संदीप रायलवार, विभागीय यात्रायात अधिकारी अमृतदास कच्छवे, बुलढाणा डिपो व्यवस्थापक रविंद्र मोरे की प्रमुख उपस्थिति में हाल ही में संपन्न हुआ। महाविद्यालय के प्रा. डा. सुनील सोमानी, इलेक्ट्रॉनिक्स विभाग प्रमुख डा. गोपाल गावंडे, कम्प्यूटर विभाग प्रमुख डा. संतोष पाटिल समेत प्राध्यापक वंद एवं शिक्षकेतर कर्मचारी का सहयोग एवं मार्गदर्शन उक्त छात्रों को मिला।

Aavishkar 2022- Highlighting Student Achievement:

Sant Gadge Baba Amravati University annually organizes a Research Convention for Students called "Aavishkar" to encourage the showcasing of students' research potential. Aavishkar - 2022 was initially organized at the district level, and students selected during this phase proceeded to participate at the University Level. Among the participants, Bhushan Hajare and Sumit Bhute from the final year of Electronics & Telecommunication Engineering were awarded prizes. Both of them secured the first prize in the UG category. Subsequently, these students represented the University in the State Level Aavishkar, held at Savitribai Phule Pune University, Pune from January 11-14, 2023.

Poster Presentation Competition

In a poster presentation, students often showcase how they have addressed specific problems or challenges. Problem-Based Learning encourages students to explore real-world issues, collaborate, and develop problem-solving skills, aligning with the practical and solution-oriented focus of poster presentations.

SSGMCE provides enriching learning opportunities to its students through an upcoming Poster Presentation Competition. This event serves as a platform for students to showcase their skills, share insights, and engage in meaningful discussions.

This event was hosted by the students of the MBA Department at SSGMCE under the guidance of Prof. Wechansing Suliya.

Department of Business Administration & Research
Shri Sant Gajanan Maharaj College of Engineering,

Dhanashri Waghole
Student Coordinator

Report On: Poster Presentation Event

Organized by Shri Sant Gajanan Maharaj College of Engineering, Shegaon
In Parishkriti 2023

Held On : 7th April 2023

Event Name:	Poster Presentation
Conducted By:	Department of Business Administration and Research
Faculty And Student Coordinator:	Prof. Wechansing Suliya & Dhanashri Waghole
Date & Time	August 7, 2023 - 4:00 PM To 5:30 PM
No. of Participants	18
Provided Theme	Digital Marketing, Work life Balance, Artificial Intelligence in Business, Employability skill
Evaluator	Mr. Prashant Purushottam Gadodiya

This Event was Hosted the student of MBA Department of SSGMCE By the Guidance of the Prof. Wechansing Suliya

Overview:

A poster presentation event is an professional gathering where participants present their Idea, Creativity and projects through the use of posters. It is held in a MBA Department conference room or conference hall, where posters made by the participants and theme of the poster are displayed on boards from that get idea to the participants to made the poster.

Goals:

1. To foster creative and innovative thinking among students.
2. To promote the use of visual elements to communicate ideas and information.
3. To provide an opportunity for students to develop their presentation skills.
4. To encourage collaboration among students.
5. To encourage students to explore and present new ideas.
6. To develop an understanding of the importance of design in presenting visual information.
7. To give students the opportunity to display their artistic skills.
8. To create awareness about a particular topic or issue.
9. To promote the exchange of ideas and opinions.
10. To recognize and reward excellence in poster design.

The poster competition was held on 8 April 2023 in the management event Parishkriti23 in the Departmental meeting room. The participants were from classes MBA, BBA. The participants were judged on the basis of creativity, quality of work, clarity of message and overall presentation. The participants had to design a poster on the topic were Digital Marketing, Work-Life balance, Artificial intelligence and XYZ. The competition was a success with a total of 18 participants. All the participants put in their best efforts and designed their posters in an impressive manner. The anchor declared the results at the end of the competition in valedictory function. Vedant Gawande from Saraswati College won first prize and Snehal from Datta Meghe College won second prize in the competition. The winner have been awarded with cash prize and certificate. The competition was a great platform for students to showcase their creativity. All the participants were appreciated for their efforts. The event was a great success and it was enjoyed by all.

Results:

1. Poster presentation events provide a platform for presenters to share their research findings and ideas with a wider audience. Attendees can learn about new research, methodologies, and techniques that can be applied to their own work.
2. Poster presentations offer an opportunity for presenters to receive feedback, criticism, and suggestions from attendees, leading to valuable insights and improvements in their work.

Overall, the results of a poster presentation event can be positive and beneficial for both presenters and attendees, leading to enhanced knowledge, collaboration, and recognition within a given field.

Evaluation:

Send an invitation card to Mr. Prashant Gadodiya for the event's guest or evaluator. The event evaluator of the Poster Presentation has Drawing Teacher of gajanan maharaj school **Mr. Prashant Purushottam Gadodiya**. The total registration was 21 but 18 participates only present their poster presentation event and all have given a positive feedback. Prashant sir was Evaluate the all participant's poster and find two best posters. Mr. Prashant was give feedback to all participant's posters.

To create awareness amongst students about innovation, Institute conducted Intra Institutional Idea Competition under IIC Activity.

SSGMCE SHEGAON **MoE's INNOVATION CELL (GOVERNMENT OF INDIA)** **Ministry of Education Government of India** **INSTITUTION'S INNOVATION COUNCIL**

**SHRI SANT GAJANAN MAHARAJ COLLEGE OF
ENGINEERING SHEGAON - 444 203
INSTITUTION'S INNOVATION COUNCIL**

ORGANISING

**INTRA INSTITUTIONAL IDEA
COMPETITION AND
REWARDING BEST IDEAS
(Early Stage Entrepreneurs)**

**Round 1 -
Submission of the idea through SSGMCE YUKTI-NIR
Link:- <https://yukti.mic.gov.in/login/SUMyMDIyMTY2NDU>**

**Round 2 -
Presentation of the short list ideas
Date - 30 th, Nov 2022
Time - 3 PM
Venue - SGIARC**

- The SSGMCE students (single or team) of all dept. who are interested to carry interdisciplinary projects through various ideas can participate in these competitions.
- Only team leader can submit the idea through YUKTI-NIR link.
- This is an initial call for ideas. The potential idea will be shortlisted.
- Eligible 1st/2nd/3rd year students.
- Top Three ideas will declared.

Co-ordinators

Name of theEvent:	Intra Institutional Idea Competition
Academic year	2022-2023
ProgramTheme	R&D / Innovation / Incubation&Pre-Incubation
Start date & End Date	30 Nov 2022
Duration of the activity(in hours)	3.00pm
No. Participants	15Students
Modeofsession (online/offline)	Offline
Program driven by	Self-driven Activities
Sessionlink / Offline venue All SocialMediaLink (Promotion)	Offline Venue: New Auditorium https://www.facebook.com/ssgmceofficialpage https://www.instagram.com/ssgmceshegaon/ https://twitter.com/AlumniSsgmce https://www.linkedin.com/school/71648478/admin/
Event Coordinator Faculty Name/Department/Designation	Dr. R. M. Kharate (A.S.&H. Dept.)
Target Participants	All Students of SSGMCE, Shegaon
Objective	*To create awareness amongst students about innovation. *To motivate students for research Benefits: *Students learnt about the need of innovation to solve the problems of society. *They gained insights about the presentation skills.

Overview of the program:

Institutions Innovation Council of Shri Sant Gajanan Maharaj College of Engineering, Shegaon organized Intra Institutional Idea Competition on 30th Nov 2022 at 3 pm.

This program was organized to reward the best ideas through YUKTI-NIR, with major objectives of promoting innovation through IIC and to encourage inter disciplinary projects having potential for commercialization and expansion as start-ups.

In this connection, the undergraduate students and postgraduate students (single or in a team) of all departments participated and presented their ideas.

The winners of the competition are as follows:

1st Winner

Name: Amit Molke & Team

Mobile No: 9022511447

Project Title: Digital Health ID Year: III

2nd Winner

Name: VASU NISTALA

Mobile No: 7058851699

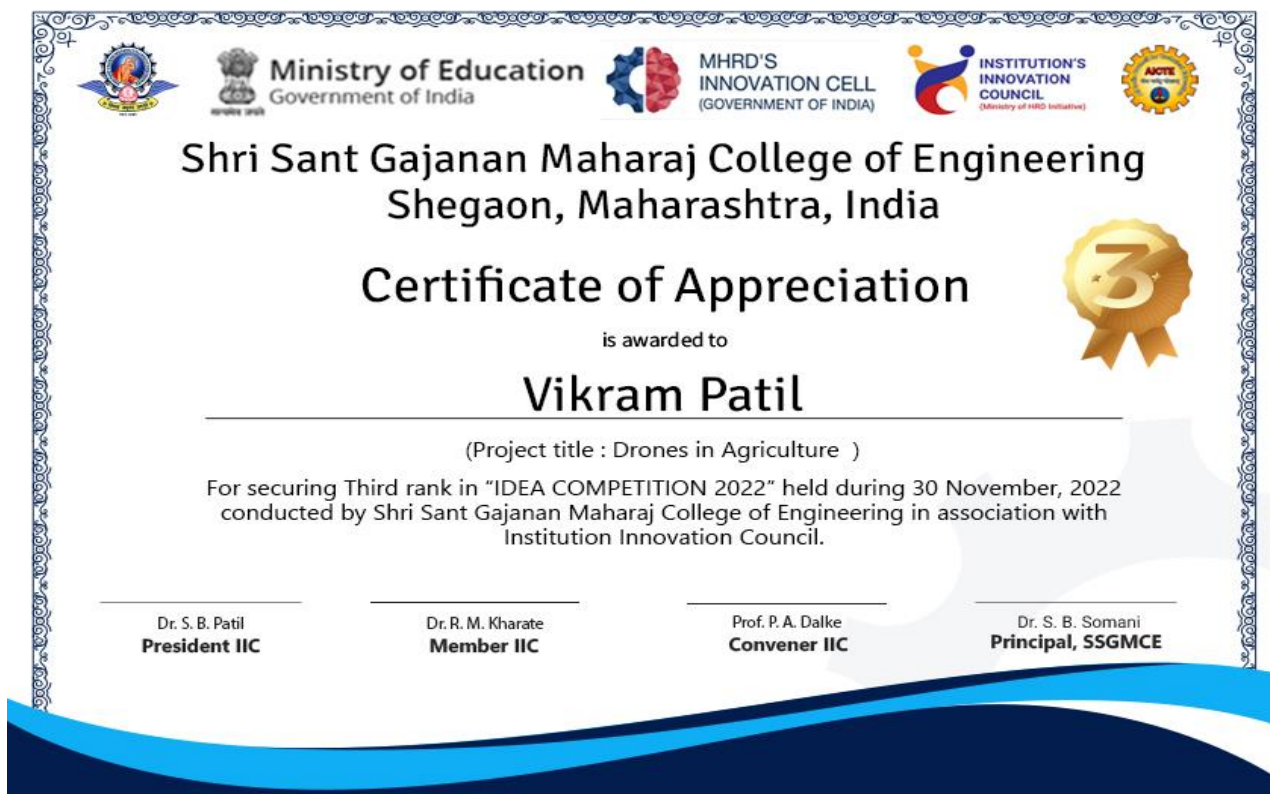

Project Title: Conceal UAV

Year: II

3rd Winner

Name: Pranjal Jitendra Phirke & Team Mobile No :9356522260

Project Title: Agricultural in Drones Year: I

Sample certificates of students during IDEA Competition 2022

Glimpses of the events during IDEA Competition 2022

Participants:

youtube.com/watch?v=wrn_XAvZo1E&t=3s

ssgmce shegaon

Date :

Aim: Determination of DO from given water sample (Iodometrically)

Analysis of Water sample (O₂)

Sr. No.	Volume of water sample	Volume of Na ₂ S ₂ O ₃ in ml (2N/100)	End point ml
1	203 ml	12.5	12.5 ml

Calculations

$$N_1 V_1 = N_2 V_2$$
$$N_1 \times 200 = 0.01 \times 12.5$$
$$\therefore N_1 = \frac{0.01 \times 12.5}{200}$$

N₁ = Normality of dissolved oxygen

$$= 0.000625 N$$

Concentration of DO = Normality × eq. wt. (O₂)

$$= 0.000625 \times 8 \text{ g/lit}$$
$$= 0.000625 \times 1000 \text{ mg/lit}$$
$$= 5 \text{ ppm or mg/lit}$$

Dr. A.U. Jawadekar effectively employed Google Colab as an online coding platform, showcasing the feature selection algorithm. This approach facilitated a collaborative and accessible environment for students to interact with and understand the algorithmic concepts.

```
import numpy as np
import pandas as pd

import matplotlib.pyplot as plt
import seaborn as sns
sns.set(style="whitegrid")

import warnings
warnings.filterwarnings('ignore')

# Load Iris dataset from Scikit-learn
from sklearn.datasets import load_iris

# Create input and output features
feature_names = load_iris().feature_names
X_data = pd.DataFrame(load_iris().data, columns=feature_names)
y_data = load_iris().target

# Show the first five rows of the dataset
X_data.head()
```

	sepal length (cm)	sepal width (cm)	petal length (cm)	petal width (cm)
0	5.1	3.5	1.4	0.2
1	4.9	3.0	1.4	0.2
2	4.7	3.2	1.3	0.2

Identifying the Requirements from Problem Statements

Introduction Theory Simulation Case Study Self-evaluation Procedure Exercises References

Introduction

Requirements identification is the first step of any software development project. Until the requirements of a client have been clearly identified, and verified, no other task (design, coding, testing) could begin. Usually business analysts having domain knowledge on the subject matter discuss with clients and decide what features are to be implemented.

In this experiment we will learn how to identify functional and non-functional requirements from a given problem statement. Functional and non-functional requirements are the primary components of a Software Requirements Specification.

CLOUD COMPUTING

Introduction of Subject

Cloud computing is sprawling the IT landscape. Driven by several converging and complementary factors, cloud computing is advancing as a viable IT service delivery model at an incredible pace. It has caused a paradigm shift in how we deliver, use, and harness the variety of IT services it offers. It also offers several benefits compared to traditional on-premise computing models, including

Ms.P P Bute conducted online lecture for Assembly Language programming using Microsoft Team

Ms. P.P Bute uses interactive white board better learning experience.

The whiteboard content is titled 'Logical Instruction **Shift**'. It includes a bulleted point: 'The shift operation showing the operation & direction of the shift'. Below this are four diagrams illustrating shift operations on a 'Target register or memory':

- SHL (Shift Left):** Shows a register with a carry bit 'C' on the left. An arrow points from the register to the carry bit, and another arrow points from the carry bit back into the register. Handwritten notes include '2H SHL' and '0010 - 2', '0100 - 4', '1000 - 8', and 'X2'. A note on the right says 'MUL D='.
- SAL (Shift Arithmetic Left):** Similar to SHL, but with a sign bit on the left. Handwritten notes include '8H SHR' and '8 1000', '4-0100 -1', '2 0010 -', '1 0001'.
- SHR (Shift Right):** Shows a register with a carry bit 'C' on the right. An arrow points from the register to the carry bit, and another arrow points from the carry bit back into the register. Handwritten notes include 'Shift right division by 2'.
- SAR (Shift Arithmetic Right):** Similar to SHR, but with a sign bit on the right. Handwritten notes include 'Shift right division by 2'.

On the right side of the whiteboard, there is a vertical list of participant avatars with initials: KC, KK, KC, PM, PP, PN, KU, SW, KG, VG, KP, SY, KM, +10.

Mr. C. M. Mankar conducted online Classes/Lectures for the curriculum subject "System Software" B.E. Third Year, Sem-5 from 27/07/2020 to 29/10/2020 during Autumn/ Winter Semester, Session: 2020-21 for this purpose he used ICT Tools used – Microsoft Teams Platform

Buffer Pairs

```
while (y < z) {  
  int x = a + b;  
  y += x;  
}
```

Begin pointer lexemeBegin forward pointer

Figure 3.3: Using a pair of input buffers

The large number of characters that must be processed during the compilation of a large source program, specialized buffering techniques are used to reduce the amount of overhead required to process a single input character.

Each buffer is of the same size N, and N is usually the size of a disk block, e.g., 4096 bytes. Using one system read command we can read N characters into a buffer, rather than using one system call per character.

From Lexical Analysis to Syntax Analysis

program text: 5 + (7 * x)

token stream: num + (num * id)

parse tree:

```
graph TD
    E1[E] --- plus[+]
    E1 --- E2[E]
    E2 --- LP("(")
    E2 --- E3[E]
    E3 --- num1[num]
    E3 --- star[*]
    E3 --- id[id]
    E3 --- RP(")")
```

Abstract syntax tree:

```
graph TD
    E1[E] --- plus[+]
    E1 --- E2[E]
    E2 --- num1[num]
    E2 --- star[*]
    E2 --- E3[E]
    E3 --- num2[num]
    E3 --- id[id]
```

Grammar:

- E → id
- E → num
- E → E + E
- E → E * E
- E → (E)

Parser

Mr. C. M. Mankar conducted online Classes/Lectures for the curriculum subject "Database Systems" B.E. Third Year, Sem-6 from 01/Mar/2021 to 02/July/2021 during Spring/ Summer Semester, Session: 2020-21 for this purpose he used ICT Tools used - Microsoft Teams Platform

The image displays four screenshots from Microsoft Teams online classes:

- Top-left:** A video call window showing a participant and a presentation slide with letters S, SH, and SJ.
- Top-right:** A "Homework" slide with three questions:
 - 1) Which normal form is considered adequate for normal relational database design?
 - 2) What do you mean by Lossless, dependency-preserving decomposition into BCNF? Why it is always possible?
 - 3) Why it is said that, BCNF is free from redundancy?
- Bottom-left:** An "Agenda" slide listing topics:
 - 1) Intro to Unit-3 syllabus,
 - 2) Entity integrity,
 - 3) Referential integrity rules, Planning optimal repair sequences
 - 4) Example of Foreign key,
 - 5) Integrity Constraints,
 - 6) Intro Normalization,
 - 7) Anomaly (& its types)
 - 8) Homework.
- Bottom-right:** A "3R Database Systems 9" title slide with recording details:

Dr. J. M. Patil conducted online Classes/Lectures for the curriculum subject "Computer Architecture (6KS04)" B.E. Third Year, Sem-6 from 01/Mar/2021 to 02/July/2021 during Spring/ Summer Semester, Session: 2020-21 for this purpose he used ICT Tools used - Microsoft Teams Platform

Agenda

1. Unit Wise Syllabus
2. Text and Ref Books,
3. General Introduction,
4. Computer Architecture, Computer Organization
5. Difference between CA and CO,
6. Functions of Computer
7. Structure of Computer

8th March 2021, Mon

6KS04 Computer Architecture ?

Computer Architecture :
Computer Architecture is a functional description of requirements and design implementation for the various parts of computer. It deals with functional behavior of computer system. It comes before the computer organization while designing a computer.
Architecture describes what the computer does.

Computer Organization:
Computer Organization comes after the decide of Computer Architecture first. Computer Organization is how operational attribute are linked together and contribute to realise the architectural specification. Computer Organization deals with structural relationship.
Organization describes how it does it.

8th March 2021, Monday

Lecture -1: CA (6KS04) – Definition of CA and CO

Instruction Cycle State Diagram

Figure 12.1: Instruction Cycle State Diagram

Table 12.4
Processor Actions for Various Types of Operations

Data Transfer	Transfer data from one location to another If memory is involved: Determine memory address Perform virtual-to-actual-memory address transformation Check cache Initiate memory read/write
Arithmetic	May involve data transfer, before and/or after Perform function in ALU Set condition codes and flags
Logical	Same as arithmetic
Conversion	Similar to arithmetic and logical. May involve special logic to perform conversion
Transfer of Control	Update program counter. For subroutine call/return, manage parameter passing and linkage
I/O	Issue command to I/O module If memory-mapped I/O, determine memory-mapped address

RISC Pipelining

Pipelining with Regular Instruction

- Pipelining is used to enhance performance. Most instructions are register to register
- An Instruction Cycle has Two phases of execution
 - I: Instruction fetch
 - E: Execute
 - ALU operation with register input and output
- For load and store operations, three stages
 - I: Instruction fetch
 - E: Execute
 - Calculate memory address
 - D: Memory
 - Register to memory or memory to register operation

Four Stage Pipelined timing:

- E1- Register file read
- E2- ALU operation and register write

6KS04 Computer Architecture

High Level: Application Program

Software: Application Design, System Design, Computer Design

Computer Architecture: Application Design, System Design, Computer Design

Hardware: Logic Design, Circuit Design

Computer Organisation: Logic Design, Circuit Design

Low Level: Computer Component
